Customer Reviews

In a style similar to that of James Fenimore Cooper's "Last of the Mohicans", I found this set of novels both entertaining and historically correct. The author wraps his fictional story around true historic facts, or "FACTION," in a way that the reader can transport his or herself into the story's setting and feel the history in a way history books never capture. Worth the read of anyone who enjoys reading a book of that era where the culture and manner of talking is captured within the story.

This is a decent novel about a period of American history many know little about. The writing style is

a bit simplistic and reminds me of James Fenimore Cooper. The main character qualities are a bit exaggerated. But the novel gives a good description of what life on the early frontier was like and the politics that resulted in the French and Indian wars.

Altsheler wrote in the style of of his time and probably reflects the time of the conflict in the fashion that contemporaries would have found most appealing. The manner of speech probably more closely approximates the actual dialog of the time. The stories are fantastic and fun to read.

Read these series back when I was a teenager was impressed with them then and now.

Not what I thought it was. Good for younger readers, though.
