Customer Reviews

The experts at The Princeton Review have been helping students, parents, and educators achieve

the best results at every stage of the education process since 1981. The Princeton Review has helped millions succeed on standardized tests, and provides expert advice and instruction to help parents, teachers, students, and schools navigate the complexities of school admission. In addition to classroom courses in over 40 states and 20 countries, The Princeton Review also offers online and school-based courses, one-to-one and small-group tutoring as well as online services in both admission counseling and academic homework help.

Good book for a quick review for the MCAT

Great book to use for guiding you through the MCAT exam and process of medical school applications, the only downside is the overall weight of the book. But other than that nothing bad about the book

Product is as expected. Came on time and is a great guide.

Nice and excellent experience

great price in comparison to book stores.

ok
