## Customer Reviews

I LOVE Dover books for how inexpensive and valuable they are: they provide us with so much more visual imagery than we'd ever be able to get on our own. This book has about a million...oh I exaggerate...only 340 patterns as shown on carpets, saddle blankets, wall hangings, windows, and every other type of decorative or functional item. Of course, the fault is that all the images except for the front cover and inside the front and back covers are b&w. For my purposes, that's fine: I like to stitch oriental carpets and this includes some beauties that just need colors. I also like blackwork and there are myriad patterns that could be put to good use there. Almost every pattern is on a grid so it can be translated onto counted fabric. Quite a treasure.
