500 Tattoo Designs

Synopsis

Tattoos are no longer unusual or uncommon; they are now an undeniable element of mainstream style and fashion. But tattoos are expensive and, more importantly, permanent; so choosing an image is a very big decision. Here to help is *500 Tattoo Designs*, a vast reference library of popular tattoos. Neatly organized by theme, the clearly executed line drawings cover every conceivable subject area; historical and traditional to modern, from tribal imagery of native American Indians, Japanese and Chinese characters, arcane hieroglyphics to gothic skulls, Celtic amulets, and more. The book also features body positioning hints for specific designs, a discussion of color dynamics, and notes on health and safety. Whether you want to show off your design or conceal it, this book is packed with hundreds of possibilities.

Book Information

Series: Pocket Guide Series

Hardcover: 256 pages

Best Sellers Rank: #511,239 in Books (See Top 100 in Books) #127 in [Books > Arts & Photography > Other Media > Body Art & Tattoo](#) #890 in [Books > Arts & Photography > Collections, Catalogs & Exhibitions](#) #1158 in [Books > Humor & Entertainment > Pop Culture > Art](#)

Customer Reviews

Henry Ferguson is one of the UK's leading authorities on tattoo and body art. As well as being the publisher of *Body Art* magazine, one of the foremost journals on body art, Henry co-authored *The Art of Tattoo*. Henry lives in Norfolk. --This text refers to an out of print or unavailable edition of this title.

Great book

Only gave it a 5 star rating so people would not buy this book. My 3 year old can draw flash better than the illustrations in this book and he is blind.. Find one of the tattoofinder.com flash books.

Great tattoo designs. Used this book for henna tattoo ideas

I must not have read the review on this book before I purchased it. I usually do when I shop so I'm beginning to wonder if I intentionally meant to order this at all. I truly must have clicked the wrong button somewhere. With the promise of 256 pages of tattoo design, I can see why people may buy this item. To tell you the truth, I have never been so disappointed by a book in my life. I can say that without exaggerating. A couple of the Asian line art images were ok, just to give it some slack, but basically all I'm left with here is a collection of primitive and child-like drawings. The number of pages might be correct, but the book is teeny tiny; only 14 x 17 centimeters, so the butter is spread thin. Furthermore the biggest flaw is the shameful lack of explanatory text to these doodles (which I would hardly call 'designs'). Ultimately you don't get very much content at all. I was planning my next tattoo and needed a little input; needless to say; this book certainly did no such thing. It's a waste of good paper and money.

Great.

had one before , great designs, previous book was stolen so had to replace, great seller

Fast shipping but not very thrilled with the book itself....not very good stencils! Would have liked better pictures but I guess for price it was okay!

I think writing down a review should be optional. Just like how it used to be. I just want to give a couple of stars, clear my order history and get on with the rest of my day. But now we can't send a rating until we give a review on the product we ordered. I used to only write a review if there was something wrong. If not, then I give five stars. I don't have time to write a review for everything I order so I'll just copy and paste this on every order. MAKE THIS SECTION OPTIONAL. Thank you and have a great day!
