My friend told me about how bad sugar was for me so I decided to cut it from my diet. I came across this book and it was GOLD. It offered 4 options to help me take it out of my diet. 10 days, that is all it took. I'm not going to lie, it was hard for the first few days but the book helped me deal with it. It even offers an option if you are a vegetarian. I am no longer craving sugar and I feel fantastic. I have even lost weight! I wish I would have found this book sooner! If you are looking to live a healthier lifestyle then pick this book up. You owe it to yourself.

Reading this book has helped me to better understand more about how sugar affects my body. I learn the effects can cause things from heart disease to anxiety and even depression. I never paid attention to how many hidden sugars were in foods that we consume daily. The list of alternate names for sugars provided in this book is a great resource and really opened my eyes. I was really amazed that there were so many names sugars go by. This is a great book, for those looking to make a lifestyle change. *I received this ebook in exchange for an honest and unbiased review, all opinions are my own.

I med more energy but this does wake you up. I get groggy again after 3hrs or so. I take turns with this one and my yerba mate shots those last me 8-10hrs.

Very helpful, with recommended foods.

As a mother you are always trying to find foods that are low in sugar for your kids. This is a great book for that it teaches you all the sugars and other ingredients that are hidden in a label that are also sugar. I was amazed on the great information within this book. As you get older your weight is not as easy to lose in my opinion. This sugar detox is something that I really need to do. Disclaimer I was given this book to review all of these thoughts are my own.
