Sources Of Chinese Tradition, Vol. 2: From 1600 Through The Twentieth Century (Introduction To Asian Civilizations)

Synopsis

For four decades *Sources of Chinese Tradition* has served to introduce Western readers to Chinese civilization as it has been seen through basic writings and historical documents of the Chinese themselves. Now in its second edition, revised and extended through Deng Xiaoping and Jiang Zemin—œera China, this classic volume remains unrivaled for its wide selection of source readings on history, society, and thought in the world’s largest nation. Award-winning China scholar Wm. Theodore de Bary—who edited the first edition in 1960—and his coeditor Richard Lufrano have revised and updated the second volume of *Sources* to reflect the interactions of ideas, institutions, and historical events from the seventeenth century up to the present day. Beginning with Qing civilization and continuing to contemporary times, volume II brings together key source texts from more than three centuries of Chinese history, with opening essays by noted China authorities providing context for readers not familiar with the period in question. Here are just a few of the topics covered in this second volume of *Sources of Chinese Tradition*: Early Sino-Western contacts in the seventeenth century; Four centuries of Chinese reflections on differences between Eastern and Western civilizations; Nineteenth- and twentieth-century reform movements, with treatises on women’s rights, modern science, and literary reform; Controversies over the place of Confucianism in modern Chinese society; The nationalist revolution—including readings from Sun Yat-sen and Chiang Kai-shek; The communist revolution—with central writings by Mao Zedong; Works from contemporary China—featuring political essays from Deng Xiaoping and dissidents including Wei Jingsheng. With more than two hundred selections in lucid, readable translation by today’s most renowned experts on Chinese language and civilization, *Sources of Chinese Tradition* will continue to be recognized as the standard for source readings on Chinese civilization, an indispensable learning tool for scholars and students of Asian civilizations.

Best Sellers Rank: #71,016 in Books (See Top 100 in Books) #30 in [Books > Travel > Asia > China > General](#) #75 in [Books > History > Asia > China](#) #82 in [Books > Politics & Social Sciences > Social Sciences > Customs & Traditions](#)

Customer Reviews

If I were asked to recommend only one book for anyone who wishes to know something about Chinese culture, I would name, with a moment of hesitation, this new edition of *Sources of Chinese Tradition*. (Ying-shih YÄfÄ , Gordon Wu 1958 Professor of Chinese Studies and professor of history, Princeton University)

The single most valuable collection of English-language readings on China past and present for more than thirty yearsÄçâ –â çnow thoroughly revised and updated to reflect the changing currents of recent Chinese history. Stretching from the founding of the Qing dynasty to the aftermath of the crackdown at Tiananmen Square, *Sources of Chinese Tradition, Volume II* is a rich treasury of primary source readings illuminating the past three and a half centuries of Chinese culture.

This is one of the great seminal works dealing with Chinese history and culture. It enables English-speaking scholars to have a rare, and in depth glimpse into primary source material from the Middle Kingdom. To anyone working with Asian history, this work is a requisite. Primary-source materials like these, presented in an anthology, allow students to get to know the major events of history first-hand. Much to students' surprise, the original texts are both interesting, and not that difficult to grasp. Dr. Thomas J. Martin, Asian Studies, SUNY

This came in great condition as it was described to be (no wrinkles, stains, dog ears, etc.). It's a pretty good book; very huge and lots of sources, but each document isn't that long. It's a useful book for my course (History of Modern East Asia). This focuses on China, Korea, and Japan (my class focuses on the twentieth century but this goes centuries earlier). It also came in in pretty good time, earlier than it said it would with standard shipping.

Dry academia reading. Had to get it for a class, but it was unfortunately dry for a colorful history.

Must have for Asianists.

great

this book is really great, detailed, eye-opening, and the quality is as great as described!

To study modern Chinese geopolitics we should first understand Chinese Political Tradition. It helped me to understand Wei Yuan's "Haiguo tuzhi" and its connections with today's Chinese strategy toward Russia, The States, India.

doesn't look like a used one. it's like a new book. great
