Customer Reviews

This book is amazing i love it alot the pictures are in great detail. I love everything Selina Fenech dose.

Very disappointed there were no description of the plants, flowers or fish depicted in any of the pictures. No idea what colors to use. If you want your pictures to be realistic. If you don't care and just want to color, you'll be happy with the selection.

Another beautiful book from Selina. I've never been disappointed by her work & the extra set of pages that every book comes with just makes it that much better.

There are a lot of pictures to color, the only problem is that they have a lot of similarities.

She's my very favorite coloring book artist.

This is a beautiful book. Love coloring in it. So relaxing and takes me to the gardens I love.

Once again, this coloring book is designed for colored pencils only. The pages are also not perforated, altho there are two of each design in the book. However, some of them are downright boring (the same flower all over the page with nothing else).

Love it.
