Sexy Cheeks

Synopsis

Likewise men and women feel magically attracted looking at all these wonderful sexy cheeks. There are supercharged butts of blazing overabundance instinctively turning us almost green with envy. Photographer Gordon Denman has shot these cheeks in totally different perspectives: from above, overblown, or side-face. And he subsided to the women to show us their cheeks and vulvas as though looking up to the planets in the sky. His models are playing full of relish with themselves. You see one women suddenly inserting her finger into her anal orifice, another is catching the fire of ecstasy with her dildo, or you see two young girls cooling down their hot cheeks with a shower in the garden. A great cheeks collection that makes you simply zealous!

And beautiful ladies ladies have beautiful curves. Among all her curves, the hip might be deepest, and fullest, and most womanly, and most powerful, and most evocative. Her birth canal, and all the wonderful things that implies, pass between those hips. Not to mention her cheeks' proximity to her outer labia, cousins in shape if not size or function. So, the parts that I like best in this collection explore that fullness and how it relates to the rest of her person. And the crevice behind on a woman relates to the crevice in front, in ways. This explores them, and the opening that each offers, and the way that some large and cylindrical toy might turn each exit into an entrance. That, for me is where exploration of elegant curves becomes vulgar. I love the cheeky pictures this offers. I really enjoy the way her labia (both) might show from behind, and all memories those images bring back.

And I feel honored to be some part of my lover's self-stimulation, when I take the role of friend helping beloved friend. Most of these images, though, don't offer the happiness that a model could project if she truly felt. Beautiful, as I use the word, but not lovable or even pretty.-- wiredweird

Edition Reuss has embraced the vision of Mississippi-based photographer Gordon Denman with gusto. Denman's previous books of sex photography, erotic nudes, and fetish photography have solidified his artistic stance and proven quite the success for his publisher. In *Sexy Cheeks*, Denman showcases his unique gift of erotic composition with a special emphasis of the backend of his beautiful, female subjects. There is real beauty here, even a sense of purity, but there is also a brazen sense of sexual power. Much of the imagery within frames the gluteus maximus as a beautiful corridor to a woman's sexual organs. And as many evolutionary biologists will attest, the female behind is explicitly designed to arouse our reproductive urges. Denman embraces that notion and it's hard not to be titillated and enthralled. It's a roadmap into very intimate terrain guaranteed to enchant.
