What a wonderful cook book! These recipes are healthy AND very tasty! It is east to use and just a real asset in my kitchen. Thank you

As a single guy living alone, bought three healthy, fitness-related cookbooks. This one is by far the best. It had the most recipes that I am interested in, great recipes, most of them quite easy to follow and make, even for quick weekday night dishes. Awesome and inviting photos too.

Alot of good recipes to help mix up what can be a very plain diet plan, but the "Cheesecake" sucks.

I have been trying these recipes as soon as I got the book and they are delicious!! I have definitely havetrouble getting enough protein in my diet then I feel too tired to workout. Definitely have more energy since I havebeen using these recipes and feeling more full so I don't want to cheat on my diet!!! highly recommend this book if you are looking to build muscle but don't want to skimp on taste!!

Awesome cookbook! It is extremely informative but keeps it simple. This is a great cookbook that includes info about what you should be eating pre and post workouts, guidelines to follow based on your goal (lose weight, gain muscle, maintain, etc.) and super easy recipes!! If you have a sweet tooth then you'll really love the insane, yummy recipes that pack a ton of protein!! My fave is the lemon bar cookie!! Anyway, I can be a little ADHD at times and this book is straightforward and simple. No extra "blah blah fluffer" material you don't have time, nor care, to read. It's great for, both, a newbie in weightlifting looking for tips and a guide on WHAT to eat and WHY OR a lifelong gym rat looking for new recipes and extra tips. It's not just for muscle gain either...it's for weight loss, too. Regardless, the more muscle you have, the more fat you burn, right? Great cookbook, fantastic guide and awesome price, check it out!

I love knowing the science. The way it is written in so easy to understand and the recipes are fabulous!!!

It could be better.Right now it's just recipes.... nothing even creative. Might as well get mike matthews new recipe book, you even get free bonus from it

I hate cookbooks- but I actually like this one! Good stuff!
