The Realism Challenge: Drawing And Painting Secrets From A Modern Master Of Hyperrealism

Synopsis

Each lesson builds off the previous one, as you'll master essential artistic techniques like creating drop shadows, adding highlights, and building from light to dark. Learn the secrets of one of hyperrealism's biggest stars. Come take . . . The Realism Challenge!

This is a very nice introduction for artists who want to enter the hyper-realistic world of art. While not strictly a book on Photorealism, it's the best level at which to start the journey. Even if you've worked this way in the past, it's still a good refresher on some technical issues. It's definitely worth a look.

Great beginner book if this is the style of art you prefer. A little of this, and a little of that. Realism explanation is minimal.

Arrived it great shape and very timely. I love the lessons it provides. I am just slow in getting them done. Thanks!
