## Synopsis

Life on the run is no way to live, but neither is being abandoned on a treacherous planet when you're just a kid. Auden and Tãtirea, daughters of a pilot dishonorably discharged from the Consulate Navy, are on the run. Inexplicably left behind by their loving, fugitive parents after a crash landing, the sisters toil for little reward and look for them or an explanation for why they were abandoned. Dealing with a bureaucracy pitted against their interests, they are determined to survive until their parents return. But being stranded on a world in an inhospitable planetary system does not remove the threat of being captured by the Consulate Navy. A jealous admiral with a personal vendetta is willing to go to any lengths to get what he is after. Even if that means silencing the Mor children permanently. Can the girls face a life without hope?

## Customer Reviews

Scavengers was a good old romp in the black. Would have liked it to be longer, but nice syfy story.

Will look into some of his other works. I think I'm going to like this guy.

Another great story that just happens to be set in a science fiction themed book, but could stand on its own in any genre. 5 stars!!

ok

Average story and depth.

Needed more editing. Tension could have easily been leveled up.

My only complaint/request we Want Book We Want More Book.... Another 600 pages please :)

The story is disjointed, with 2-dimensional characters and horribly edited. More a short story than a book; a 1-hour read with a weak end.

Although short in length, this short story packs one helluva punch! This story opens with a family on the run, ultimately crash landing on a world populated by strange alien beings and outlaws. And that's just the beginning. The story follows two sisters, who are--without warning--left on the alien world to fend for themselves. They have no food, water, parents... nobody but each other... and a shady scrap dealer. From that point on, the girls have to look after each other, fending off outlaws and thugs, murders and thieves. I can easily see this story set in the Star Wars universe, it carries that same vibe and mannerism. There's also a big secret revolving why the parents abandoned the girls on this planet and if or when they'll ever come back. Overall, it was a good read, suitable for all ages (but mostly young adults). Definitely worth the read and viewer ship.
