Best Sellers Rank: #1,564,628 in Books (See Top 100 in Books) #105 in [Books > Medical Books > Allied Health Professions > Podiatry](#)

## Customer Reviews

Dr. Michelle Soble is a podiatrist with an active Medical Reflexology practice. She regularly promotes the benefits of reflexology through seminars for medical professionals, special interest groups and television appearances.

Great book for a professional reflexologist to own and be able to refer to many times. It is not long.

I've been a professional Reflexologist for 30 years. This book has been very helpful for explaining various conditions to my clients. Especially the section on plantar faciitis, what to do and not do.

I appreciate the undertaking of this book, but would like to have had more reference information about different medical problems encountered with feet so that I might more readily identify issues that need referral to a podiatrist.
