Lisa capitalises brilliantly on her gifts as a young adult novelist and experiences speaking to hundreds of parents by creating a book that will bless many families. There's WHAT on My Phone? uses a natural story to help parents talk openly about topics that can feel very unnatural. The Bible implores us to hide nothing and "live as people of light" (Ephesians 5:8). But, many times, parents foster an en- vironment of secrecy, darkness, and shame by not saying anything at all. Lisa has taken away all the excuses. If you've never talked to your 10-14 year old son or daughter about how technology distorts God's beautiful design for sex and sexuality, then this is your book! -Chris McKenna, Founder protectyoungeyes.com, Covenant Eyes Educational Resource Manager This book will be a lifesaver for families. Parents who need help talking with their children about sexuality have a great resource in There's What on My Phone? Easily accessible pornography has endangered children all over the world. Violence and human trafficking are being fuelled by pornography, including illegal images. This is a book with hope and practical tools for families. - Richard Blankenship, President, IACSAS; author
