Best Sellers Rank: #88,763 in Books (See Top 100 in Books) #3 in [Books > Law > Rules & Procedures > Remedies](#) #1025 in [Books > Textbooks > Law](#)

Customer Reviews

Maybe they will fix some of the major issues in another print/edition, but the one I got was poorly written. In one particular case they mix up the parties--calling one the Defendant who was in reality the Plaintiff, and calling the Plaintiff the Defendant. Just reading makes it confusing. Some of the rules are poorly restated as well. Additionally, I think this books should implement some of the notes the Laylock places in the textbook as they are extremely valuable--maybe more so than the cases in some areas. However, I do not hold that against the compilers of this book as that is not its intended purpose, but I have seen it in other Casenotes books, and it would be very effective in this one. Overall, I think it probably largely helps, but do not use it as a full-bore supplement without giving it a skeptical eye. If it were less expensive, I probably would toss another couple of stars on, but at the end of the day, I just simply do not use it. A new student in paralegal school would identify

serious flaws in this, let alone a lowly law student.

This was an awesome study tool, since I had no clue what the professor decided the ultimate rules of the cases were in class. This Casenotes product provides the facts, issue, holding, rule, and any additional analysis that the Casenotes editors deemed necessary, including important terminology. I wish I had purchased this at the beginning of the semester to prepare for class, but this book made it very easy to drop each rule from the Casenotes brief into my outline at the end of the semester. I felt like one or two of the "rules" were not keyed to remedies, which seemed odd. Obviously, the cases discussed in the casebook could touch multiple issues, but the rules we take away in a remedies class should be remedies-focused.

PERFECT addition for your remedies book

Casenotes is a must for all Law Students. The front cheat sheet I look at when listening to Law Professors Audio tapes.

For my Remedies class (which was "rule" heavy), this was all I needed. Casenotes legal briefs are excellent: they contain the pertinent facts, the rule, and the holding. Additionally, I love the summary of the rules at the beginning of each chapter.

Provides quick access to case briefs, which clarify and gives a different point of view, to understanding legal concepts covered in law-school and case books.

This book has been very helpful in my Remedies class. It is understandable and clear it is really helping me in class.

Great for keeping abreast in class.
