## Customer Reviews

This CD set is excellent! I recently took a semester of beginning Italian and this tape serves to reinforce what I've learned as well as prepare me for the next level course. What's great about it is I get more practice speaking Italian and hearing Italian as well as training my ear to hear native Italian speakers which is immensely different from what you hear in a classroom setting. I recommend this set to anyone wanting to improve on their speaking the Italian language and sustaining their knowledge of the language between subsequent course taking.

I bought this cd set to prepare for a trip to Italy. The first CD is marvelous just like the other reviewers said. From then on, some lessons are very helpful for the tourist, some less helpful. I listen to each lesson over and over because they allow very little time for repetition. Whereas on the first cd they repeated things 3 times which was a lot, in the second and subsequent cd they give you only once chance to practice a word, phrase or sentence. The grammar lessons get a little hard going as well. The two native speakers, a man and a woman, have slightly different ways of saying things which is helpful to hear. All in all I recommend this for someone who needs to learn some key things in Italian for a trip.

I bought this because I'm taking a tour to Italy. As others have stated, the first CD gives a lot more opportunity to repeat the phrases, I wish they would have used that speed through the others. However, after repeatedly listening to the others, I am learning from them as well. CDs 2-4 are not as easy to learn from in the car due to having to do more pausing of the CD. Since I am a visual learner when it comes to words, I am finding the booklet useful. Most of the content will be useful in Italy.

many people have said bad things about this product but, none of the negative reviews are true. This is an excellent way to learn. plus you get involved in the learning process. I hope they do a deluxe version

What a great program. Even though other drivers may think I am senile, it is so fun driving and repeating all of the words and phrases. I feel I am really learning Italian.

I'm really enjoying the Drive Time Italian: Beginner Level. It's great that you can re-play any part of each lesson as many times as you need to -- to feel comfortable to go on to the next lesson.

i decided to purchase an audio lesson in italian...so I bought Drive Time. The first c.d. is fantastico. It's easy to follow along and you can get a good grasp of it even though its focused on small phrases. CD2, goes into warp speed and continually gets faster with every c.d. I don't know what happened between cd1 and the rest but i wouldn't reccommend it for beginners. If you know spanish,...great. I'm sure the pace is okay. But if you don't know spanish or any italian, fohget-a-bout-it. There isn't enough time to even repeat some of the words yourself. I find myself hitting pause every phrase/word so i can repeat it at a decent pace. If you decide to purchase it,

good luck.ciao ciao.

I chose this series because I had great success a few years ago with Drive Time French. I studied both languages extensively, but like most, let my skills drift into the blurry past. Driving and listening without a book has been very helpful. It forces me to think in the language. And there is a little manual of vocabulary to refer to (off-road) if I need to see a word. There is one voice on the lessons that drops off on some endings. But that is rare. I will be living in Italy next year for two months. Drive time Italian is giving me a great start.
