Customer Reviews

These are beautiful! I also had ordered the garden fairy bookmarks, emily dickenson bookmarks, and the Monet bookmarks, but these Henry David Thoreau bookmarks are my favorite! The picture on the cover isn't as beautiful as the ones on the inside. There are also bookmarks with a winter scene, a farm scene, a man under a tree by a stream, a buck at sunset, a fall scene and other various nature pictures. I loved them all. Definitely worth the \$2!

Here are even more delightful bookmarks from the Dover series and they are very nice indeed. They are about 2"x6", printed on heavy coated stock, and neatly and easily separate from the perforated pages. Each bookmark has an excerpt from one of Thoreau's writings and an appropriate and colorful illustration on the opposite side. Unfortunately, the artist's name is missing

so we'll never know who did the illustrations. These will make a nice little additional gift when you give a book to someone and will even make a nice, handy little gift for yourself

I had needed a regular bookmark for some time as the one I was using started to curl from the heat of a Tucson summer. When my set of 12 Thoreau bookmarks arrived I was captivated by the illustrations and the quotes from the naturalist. I knew of the man, but was very surprised to find out he was only 55 years old when he died. I decided to use the bookmarks in the order they were placed and had no trouble tearing out the first one. My only problem is it seems a little short, so I gave it four stars, but other than that, it is of very good quality, with a smooth finish and bright colors. It gives me peace of mind to know that when #1 is ready to be retired, I have 11 more waiting to take its place, and am very glad I made the decision to give this set a try.

Totally better than I thought they would be. I used this to round out my total for an order so I'd get free shipping but I ended up actually using these. Pleasant pictures, great quotes on the back, and better than expected construction. Just tear along the perforated edge once you find a bookmark you like. I even gave some to my nerdy friends who I know read as "just because" gifts which they totally loved.

These are the first Dover bookmarks I have ordered and they are lovely ! They are sturdy card stock, with 12 different beautiful color illustrations with a glossy finish. The back of each features an excerpt from Thoreau's writings. I bought them for myself, but also I'd have something to tuck inside a letter or greeting card, but they would also make a fine addition when giving a book to a friend. I will certainly be buying more of them. Although they can be separated and given individually, a booklet would make a nice stocking stuffer for my bookworm grandson. Dover has bookmarks in many themes and for all ages and I know he will enjoy them. Oh yes ! These bookmarks arrived today -- exactly when promised !

Inexpensive gift to include with a real book. Nice painting on the front and lovely sentiment on the back.

These bookmarks are lovely. I gave them as a gift along with some books to a friend. I have other bookmarks from this manufacturer and my suggestion is to use a sharp pair of scissors to separate these bookmarks. Using the perforations, due to the heavy card stock, can rip the bookmarks, so

take the time to cut and trim them with scissors and you will be happy with the appearance.

I wanted some bookmarks for school. Given how many textbooks I have all at once, I needed a lot and didn't want to spend \$5 or \$10 apiece. Then I found these on , just \$1.50 for 12, perfect! They aren't anything special, just thick glossy paper with prints on them, but for the price I wouldn't expect much more. They come bound in like a pamphlet, and have perforations that you tear them out at.P.S. - there are lots of other styles available on , to see them, search for: twelve bookmarks
