I absolutely love this book! Warning - it will absolutely whet your appetite to visit Australia. Several itineraries are presented inside, with options for shortening/lengthening the trip, swapping out legs, and approximate total costs in AUD. Fantinel summarizes each itinerary with what will be covered, and who it is geared toward - i.e. if you're a food/wine lover, nature lover, etc. Much of the content is geared toward solo travel, though Fantinel is quick to note when having a companion would be helpful. The book doesn't go into the history of each area (like a Rick Steves guidebook would), but I actually appreciated that fact. It was nice to just have the facts presented, along with what stands out about each area (i.e. one site being one of the largest seal residences). Fantinel is quick to note which itineraries are best for newbie travelers to Australia, and also shares a lot of link love - to her own and others' blog posts, tourist information sites, and more. She has a very approachable writing voice, and I'm excited to see what else is in the pipeline for her to publish. This book is a quick read, and one that will be invaluable as I dream about making my first trip to Australia a reality. Disclaimer: I received a free copy of the book from the author; I was not required to write a positive review, and have not been compensated for this. All opinions are my own.

It has some useful information but I would not recommend it for several reasons: 1. It is too big. I cannot imagine bring a book of this size with me on my trip. 2. It also appears to be directly produced from a blog post. It is different from any other real guidebooks that I have read so far. 3. The content is very limited given the price. It may be good for planning overall itinerary but provides very little information for specific sites.

51 pages of information that I got on the internet in 5 minutes by myself. Truly a scam.

As a family of five, I did wonder if we were the intended readers of this book. However, with time running out and with so many ideas and options available, this book was a real find. Clearly set out with detailed maps, plenty of ideas, opportunities to customise the trip, choices for shortening or lengthening the different legs and the opportunity to contact the author directly, this was a real help. In the end we did an adapted version of the second itinerary, but missed out the middle leg only through lack of time. Our family based ourselves in Sydney and Cairns and enjoyed the contrast between a busy city and a quieter, beachside location. We only scratched the surface of this amazing country but if the opportunity arises to visit again, this book would certainly be the first one we consulted.

I think this is a great book for people planning a trip to Australia. Michela really knows the country well and has spent extensive periods of time throughout the country. Australia is a really big place, almost the size of the continental US, so it can get overwhelming to try to see the highlights, enjoy your trip, and not feel rushed. Michela does a great job of showing you your options based on the type of trip you want to have and the kinds of activities you enjoy. She gives you a realistic view of how long you need to see different parts of the country so you don't spend your whole trip in transit. I definitely recommend this book to people who want some direction and expert advice on planning their trip to Australia.

This is the most helpful advice on Australia I have found with real timelines, estimates on cost and truly helpful links! We're planning a trip and so appreciate this candid advice! Thank you!
