Dr. Wallace B. Morrison is Professor of Veterinary Clinical Sciences and Director of Continuing Veterinary Education at Purdue University's School of Veterinary Medicine.

Exactly the reference book that is needed

I highly recommend this book for all veterinary students due to its thoroughness and most of all because it is current (or as current as one can be in the field of oncology). It reads well and provides a great number of well thought out illustrations and pictures. Plus, it highlights the major systems and neoplasms there of and covers most of the protocols for each cancer.
