## Customer Reviews

For anyone who is taking Genetics, it is a great help. Often the questions are not clear as to what is needed. This book is the answer to that issue.

If you have to use the regular book it is beyond helpful to have the solutions manual. I would recommend getting this as an addition to the regular text book, it helped me ace the class.

Arrived on time and as described.

Great tool to use when you don't understand a problem ! Highly recommend it!!
