Workbooks > Study Guides #591 in Books > Textbooks > Test Prep & Study Guides

Customer Reviews

If you have no background in German grammar then this chart is useless to you. It is confusing to follow and doesn't explain basic grammar. Not what I expected.

I'm afraid that I am not to that level of speaking German yet. It supplies time information such as pluperfect to words. I'm still dealing with the present tense. It is amazing that they can condense this subject into the single page

Unfortunately, this German grammar cheat sheet... is full of grammatical errors. In the charts of nouns, adjectives and verbs, some forms are missing their correct endings ("mein", for example, is missing the nom. fem. sg. ending); other information is wrong or at least highly misleading (the chart of cardinal numbers is broken into two color-coded sections, "Numerals" and "Cardinals", as though these were separate things; it claims that only regular verbs have a present tense, etc.) It doesn't give the plural forms for ein-adjectives. I've spotted enough mistakes after a few days of use that there's no way I'm trusting this, or anything else from the same company. I mean, seriously. You had one job, BarCharts.

Pretty good as basic guide, which is just what I needed - a supplement, not for learning German just on its own. Took off one star because it came hole punched (unlike in photo) and it cut off a letter or two in some places.

Not sure about this one yet.... it does have some errors, took it to a trip to Germany and I'm not fully fluent in German but I found some errors myself. Wish they re-do it with an error-free version, but other than those little flaws, it's very practical, and I love that it is laminated and so portable!

This is a must have!!! I teach German and this is awesome to have instead of a big grammar book. I recommend this to all of my students and all of them buy it! Oh, all of them like it as well.

I was sent the Loose Leaf style, which has 4 sides of information. I ordered the pinup style. The print is somewhat too small for easy-reading for older eyes.

Awesome simple reference. Wish there was more than just verbs and grammar as is available for some other languages.
