NOAM CHOMSKY  
**PROPAGANDA  
AND THE PUBLIC MIND**  
Interviews by David Barsamian

## Synopsis

Renowned interviewer David Barsamian showcases his unique access to Chomsky's thinking on a number of topics of contemporary and historical import. Chomsky offers insights into the institutions that shape the public mind in the service of power and profit. In an interview conducted after the important November 1999 "Battle in Seattle", Chomsky discusses prospects for building a movement to challenge corporate domination of the media, the environment, and even our private lives. Whether discussing US military escalation in Colombia, attacks on Social Security, or growing inequality worldwide, Chomsky shows how ordinary people, if they work together, have the power to make meaningful change.

## Customer Reviews

Much to be learned--as always--from Chomsky, no matter how depressing about the United States and its future (and thus the world and its future) it may be.

Another in a long line of Chomsky classics, this is a series of interviews of Chomsky by the renowned David Barsamian. Among many gems, Chomsky questions what right the U.S. has to go into other countries by intervening militarily. As he says (perhaps presaging the future): what if another country tried to meddle in our affairs? Would we like it?

He asks the right questions well noam chomsky give the most interesting answers. This good book contains alot of revealing stuff.
