This is a must have for me. I have bought Llewellyn's Witches Calendar every year for the past 35 years. I would be lost without it. It has all the lunar phases, planetary signs, holidays, daily colors, etc. that a witch would ever need. The artwork is always beautiful and there is always a bit of lore, wisdom or something that I didn't know. I recommend this highly to everyone. Witch or not. Good job!

I have been buying one for the last 12 years and from all sorts of places. I loved how it was mailed in a flat box and there was no damage to it and it's clean and pristine and ready for the next year. I normally get mine and the edges are banged up and sometimes the calendar is bent in half as the postal service tries to cram it in my mailbox. I can't live without this calendar and it provides me the info I need. I can't say the same for everyone as everyone is going to be different. This is just a must have each year for myself personally. I'm glad it was released early and the price was fair and I was able to snag it fast.

Wow this calendar is beautiful. Every month includes a spell, stone, animal, and flower correspondences, moon phases, and colors of the day. Highly recommend for any witch.

Love this because of the daily colors. I never struggle with what to wear I just pick the color it shows for the day.

Great calendar! She explains all the little symbols on each of the days on the back of the book! It is absolutely perfect for any witch out there. It tells you every time the moon changes phases and every time the moon and sun enter different astrological signs, as well as directs, retrogrades, etc. They explain what this means in the back of the book. They give you correspondences in the back for the colors of the days. There are a wide variety of colors. The artwork is amazing. The spells are interesting. They give a rather historical perspective as well.

This is the first wall calendar I purchased at full price, versus waiting until March and getting it 80 percent off, and I'm so glad I took that approach. Llewellyn's is the ideal calendar for the lazy witch. It makes practicing a pagan path nothing short of magical in its ease. In addition to having a central theme for each month, it offers a wealth of resource and information on moon phases, power colors, and holiday celebrations. Checking the calendar to get a good idea of what to expect from the day has made me feel more mindful, grounded, and self-aware. The artwork is absolutely breathtaking as well, making even the hottest mess witch feel bold enough to take on any challenge thrown at her. Blessed be!

of course i love this; some Pagan holidays are listed, along with some planetary movements/astrology. I love the beautiful art depicting various witches & Wiccan aspects, including nature. There are also spell suggestions at the beginning, and personal excercizes/spells to delve into the deeper meanings of each month. I got this along with (I got this along with Llewellyn's 2017 Astrological Calendar, because it included much more detailed astrological aspects)

I first got one of these calendar's many years ago as a Halloween gift from a co-worker. I've been hooked on them ever since and I make sure I have one every years since. I like that it's big enough to write something in the date box and that it has all of the sabbats and the moons. It's very handy and helpful.
