Customer Reviews

This book contains everything we need to know, from the benefits of RVing to working while traveling; choosing an RV, maintaining an RV and more, experience is still the best teacher. Within this book are the basics of living a full time in an RV. This book is a comprehensive and practical guide when considering living through RV.

I am very happy with both. They are chocked full of resources and lists for being organized. I would highly recommend this to all rvers. The info is something I will go back to time and time again!

Thanks Mr. Jones for the help, I am a senior and brand new to RV ing.

RV travel is a unique opportunity for your children to see new and different places and faces. You need tips on RV living and instructions to avoid mistakes that any beginner probably makes. The purpose of this book is to help you do things successfully during your RV living experience. You

should have a second checklist of things all the time that have to be done to break camp and set up your RV for departure.

Good information, easy read.

Information is very basic. Picked up a few things, but that's about it. Pages and pages of RV manufacturers and models. Didn't see the point in that other than to add volume. Would only recommend to someone that has no experience whatsoever.

This brings book brings out several scenarios about RV life the average person might overlook. Lots of helpful tips for beginners. I learned a lot. Thoughtfully detailed guidance and many tips for those considering the RV living lifestyle.
