Grammaire Progressive Du Francais: Avec 600 Exercices (French Edition)

Synopsis

La Grammaire progressive du français est une grammaire d'apprentissage destinée aux étudiants de niveau intermédiaire. Pédagogique, elle offre sur la page de gauche un cours de grammaire, sur la page de droite des exercices d'application et des activités de communication. Progressive, elle suit la progression classique des méthodes de français. Les corrigés sont fournis dans un livret séparé (ISBN 209-033849-0). Cette nouvelle édition s'est enrichie de remarques et suggestions proposées par de nombreux utilisateurs. Elle présente aujourd'hui: des pages de cours complètes de remarques utiles, des exercices transformés dans une perspective communicative, des chapitres augmentés (l'article, les indéfinis, le pronom "en", les verbes, l'interrogation) ou remaniés (les relatifs, le gérondif, les relations logiques), et un test d'évaluation général. Utiles compléments à ce livre, les Exercices communicatifs (ISBN 209-033860-7) permettent d'améliorer la production orale et écrite. Grâce à de nombreuses illustrations, ils approfondissent, de manière simple et créative, les points de grammaire abordés dans la Grammaire progressive du français - niveau intermédiaire.

Book Information

Paperback: 271 pages

Publisher: Distribooks Inc (2003)

Language: French

Customer Reviews

I should have reviewed this book years ago, but never have. At least I don't think I have. Anyway, I first bought this book a decade or so ago (OK, I know that was probably before it was first published; so, I exaggerate). My first copy became so disgusting I re-bought it. Then, I lost the answer book. So, I re-bought that. Then I found the original answer book. Then one of the puppies

ate the new copy. But not so badly I've had to replace it. Anyway, onto the review. This grammar book is about my favorite. The presentations are clear and concise. The exercises are excellent. Undue complexity is left out (Again OK, if you like undue complexity, you should still buy this book to get the grammar without undue complexity and then another grammar book to add it in). Most of my French teachers have plagiarized from it at least several times, mainly for the exercises. (Yep, I've had more French teachers than most people but they do tend to have nervous breakdowns after trying to listen to my French pronunciation with a straight face after a few months or they pay me a lump refund if I promise to never speak French near them again). But really the book is excellent. Possibly one of the two or three best grammar books. The negative: Well, it is written completely in French so if you can't decipher basic French you should avoid this book. Just study hard so you can be worthy of it. LOL Oh, yes. The other negative. It is hellish expensive. Take that from one who has bought it more than once. And the book with the answers to the exercises is sold separately. Which, incidentally, I think is a good thing as you can check your exercises without having to continuously flip to the back of the same book which is tedious. The last negative. Dogs seem to like it to chew on. But, if you're like me, if it makes your pups happy, you're happy to buy it.

This book is very appropriate for my level of French (I took no French in high school or college and I began learning French in 2008 at the College for Seniors in Asheville). In October 2015, I took a 1-week French immersion class in the Basque region of France, and this is the exercise book that my French teacher used. Everything is in French -- all instructions and exercises -- and everything is easy to understand. My husband, who is an advanced French student, said he wished that he had had this book when he was in his immersion class there, too. We plan on sharing "MY" book! Great review and explanations for: verbs (including the dreaded subjunctif), adjectives, adverbs, pronouns, direct and indirect objects, time (depuis, pour, pendant, en), and MORE! I'm very glad that I was able to locate this book online!!

I am studying the language and have found this guide to be a good way to practice French grammar. The sections are well laid out for easy reference and include repetitive exercises. I find the repetition to be good as French grammar is fairly alien to me, and the repetition helps to reinforce what I am learning. Only gave it four stars because I have not gotten through the whole book yet and cannot say for sure that it is the best tool for its purpose. So far, though, seems to be very good. One important note - does not contain the answers. You need to get the answer key book for this (Grammaire Progressive Du Francais Corrigees (Answer Key)), available also on .Also

note, there is an English version of this book available. You may want to consider it as the French one is a bit harder to understand if you are just learning the language. It's really a matter of preference. *Préférez-vous?*

It is a very useful reference book, It serves as an overview for those who have taken French before and need a reminder on certain things, like asking questions, conjugating common verbs and etc.

I was introduced to this series of book when I was in France some years ago. I now require it as a text in one of my French major / minor university courses. I highly suggest it to anyone who is in thinking of becoming a French minor or major to help you as you take courses or as a refresher during the summer months. It is filled with grammar explanations in easy-to-read. It is an authentic French publication, all in French, designed for adult learners of French. NOTE: Make sure you buy the corrections manual also!

VERY GOOD FOR MY STUDENTS ... GOOD PRESENTATION OF THE BASIC FRENCH GRAMMAR AND WITH EASY EXAMPLES TO MAKE MY STUDENTS UNDERSTAND PRETTY EASILY. I LIKE THE DIVERSITY OF THE EXERCISES FOR MY STUDENTS. VERY GOOD BOOK AND VERY EASY FOR LEARNING GRADUALLY FRENCH. THANK YOU DBA

All types of materials are important for variation in learning a language. This book compiles exercises that are seemingly easy but watch out! You need an additional book that has the answers that my friend bought. I study with 2 other friends. We do the exercises on our own, then get together to read them and correct them. I would recommend this book in conjunction with conversation, writing and reading additional material in french.

This is an excellent supplement if you are taking a beginning or intermediate level French class. However, it is best to buy the answer key as well. I purchased a used edition, at a much lower cost, that had some answers filled in.
