## Synopsis

Travel: The Budget Travel Bundle: Home is Wherever I Am Waking Up Tomorrow Series This book bundle is perfect for the budget traveler. You will learn how to embrace the luxury of local living and learn the ways of the locals with this budget travel planning book. From where to go, where to sleep, how to travel, and what to eat, these books are packed with tips and experiences of how to make comfortable travel work on a shoestring budget. Each piece of planning advice is backed up with a breakdown of costs and daily averages to help you create a budget that is just right for your needs and interests. I have spent my life dreaming of foreign and exotic places. When other kids in elementary school wanted pizza, I wanted Korean food. When friends slept over and wanted to watch *Bring it On*, I recommended *Truffaut*. I was playfully pretentious, but mostly just obsessed with the world beyond my own life. Thankfully, a few lucky breaks, lifelong saving strategies, and extensive, creative planning have made it possible for me to explore the distant corners of the globe and start to satisfy my insatiable thirst for travel. I've travelled to 25 countries (and still counting) and more cities than I have the time or energy to add up. I've had the opportunity to call places as diverse as Paris, Los Angeles, and Athens home, each remarkably different from NY, in whose shadow I spent my childhood. I've travelled well, not only far but deeply, meaningfully. I've built up international experiences and knowledge not as souvenirs or trinkets, but as the very building blocks that make me who I am. International friendships keep me up to date on the latest and greatest cultural happenings in the world, but my first hand experiences can never be displaced. They're a part of me. I've learned how to fit a happy life into the overhead baggage compartment, and I've also learned that with the right attitude, any place can feel like home. In these three books, you'll discover:

- How to make travel a priority in your life.
- How to choose your perfect vacation spot.
- Which resources and guidebooks to use to pick your ideal destination and plan your trip.
- How to embrace differences once you arrive and enjoy your trip to the max.
- How to find gorgeous options for places to rest your head without going over budget.
- How to embrace local eating culture and have the best meals of your life.
- When to spend, when to save, and when to splurge on attractions and mementos.
- How to economise on transportation and experience the rhythm of your destination.
- How to plan day trips that will improve your understanding of the culture and the region.
- How to give gifts that say "I was thinking of you" and not "I got sucked into a tourist trap."
- How to incorporate your experience into your daily life back home.
- How to do it all for \$75 a day!

## Customer Reviews

A very great Bundle for book reader. Katrina Green has written this book so well, a very simple book to read and also a great guide for travelers who cannot manage their money or budget in the entire travel. I really agree on Helen Keller's saying "Life is either a daring adventure or nothing at all". For me I love going to many places because it makes me feel relaxed, but I spend a lot of money after doing it. I like the sentence that "Travel is only an option for people who want it, for the people who are willing to prioritize it in their lives", this is true. Travelling is for people who have money and prioritize travelling without thinking any option on how can they spend money wisely, or simply the word "BUDGETING". I experienced a lot of travel because I was attending seminars and training. I'm always thinking if my budget would be enough for the entire days or week when I'm in travel so I'm thinking I must spend as close as \$0 in my entire travel like the content in this book. The most powerful factor which I learned in this book is "COOKING FOR YOURSELF", I know that it is the best way to budget money. Cooking for self while in travel is the right way to do because it can reduce the risk of spending a lot of money for a meal. I highly recommend this book to my friends.

What an interesting collective read this has been! I have been working up to the privilege of European travel and this set could not have come at a better time! I have been able to develop a realistic basis of what to expect for my expenditures in book #1. The other two books are filled with how to extend the travel I so desire - being able to enjoy a little more luxury on a lot less buck! There was one spot in the book where the author really impacted my head and heart - noting the need of "throwing yourself into what is different and exotic and exciting..is to distill yourself to your most basic and true elements." Loved the title of one of the books it will forever stay with me "Home is Wherever I'm Waking Up Tomorrow: What a dream life! Appreciate the efforts of this author, and recommend the read to others whose hearts are filled when they think about the joys of seeing just a bit more of the world.

I really like the way Katarina writes. She has such a lightweight, humorous style! And this set of three books is a real bargain. I loved all of them as they provide quite an amazing collection of tips, tricks and travel lifehacks for those who prefer budget travelling without compromising positive experiences. What I liked most (and what I agree with completely) is the idea to avoid tourist tracks and try local markets, foods, etc. Also, an idea to have as less stuff with you as possible is just great. That's what I've always hated about my fellow-travelers: they would have a whole lot of things they didn't need, and we couldn't be as flexible as I wanted to be. I personally always have a small backpack with me, and that's all. A great way to move quick and easy! If you are interested in REALLY useful and fresh travel tips, this book is a MUST! I wish I could give this book 10 stars... It's one of the really cool finds here on .

I love travels. I would like to travel around the world. Every time when I plan my next trip feel nervous and I would learn all about the destination before I arrived. This is a great book which includes a lot of useful advice about trips. In this guide there are all necessary things for travels in Europe. The author gives you advice about accommodation, public transportation, shopping, eating and more. Also, it's a helpful book because gives instructions depending on your personality!

Ready to see Europe? Need a break from the grind of life? Want to be treated like a "Rock Star" on holiday but travel on a shoe string budget? Then these are the books for you! Learn how to live like a local in Greece, how to get the most out of your travel dollars on the short get-away and the odyssey to places you never thought you would go. It is

a big, beautiful world out there full of places to see and things to do and Katarina Green will show you how to do it all, today!

I like getting bundles. I feel I get a lot more with them. Take this book bundle for instance. This book bundle focuses on budget traveling. It has information on how to have a vacation in Europe with just \$75 on your pocket per day. It also has a book for traveling in luxury while only spending \$50 per day. The third book on the bundle is covers budget traveling for 3 days with \$300 on hand. I think this book bundle will help us save a lot while still allowing us to enjoy our vacation. A definite must-have for me - a crazy traveler!

The series is a MUST HAVE. The author shares her travel philosophy, the writing is very well and the content is organized in a smart way. I am someone who enjoy traveling and I've found a lot of useful information I never thought about. Also you will learn how to save money when traveling , what to do, what to avoid and how to make the most of your trip! The books explains how to prepare and plan your long trip, even if you are traveling alone. I must say - I love the professional and classy covers too. Highly recommended!

This book is awesome! I didn't think that travelling to other countries at a low cost was possible. I really love to travel but I always thought that I didn't have enough money to do so. I am happy I have found this book. This book not only gave me advice on how to choose affordable and beautiful places to travel to but also on how to gain money at the same time. I will definitely start planning what place I will visit first.
