4000 Champagnes

Synopsis

Winner of the Louis Roederer International Champagne Writer of the Year Award 2005
4000 Champagnes, unprecedented in scope, plunges readers into the culture, history, and potential of this treasured beverage. Rich in description and practical in its application, 4000 Champagnes is divided into two main sections. The first is a passionate and comprehensive account of the Champagne region and its wines. It includes chapters on champagne's history, winemaking methodology, growing conditions, food matches, labels, a tour of the towns and villages of the French region, and sparkling wines from across the globe. In the book's groundbreaking and expansive section of tasting notes, Richard Juhlin provides the reader with practical information culled from his personal experiences at over 4000 tastings. A detailed portrait of each champagne house precedes a rating and description of each of the wines tasted there. Such depth of insight from a single source has never before been available. Written in Juhlin's authoritative and often humorous voice, 4000 Champagnes is an indispensable buying and tasting tool and an entertaining account of the history of champagne. The book includes several "best champagnes" lists, champagne statistics, telephone numbers and addresses of thousands of champagne producers, and a glossary. 4000 Champagnes is the supreme guide to a drink that has come to epitomize luxury and elegance.

Richard Juhlin has been hailed "The Champagne King" by the likes of Henri Krug and Christian

Pol-Roger. A celebrated Swedish champagne expert, Juhlin was a principal organizer for the famous Millennium tasting. Juhlin's published works include *La Grande Dégustation* and *2000 Champagnes*, and he holds the world record for the most champagnes ever tasted.

Hard to imagine a more hedonistic pursuit than sampling--and rating--4000 champagnes. This book is encyclopedic, well written and easy to use. Some of the tasting notes on small grower's special blends that aren't available to the general public are superfluous but fun to read in any event. If you are into Champagne, this is a book you should have. I enjoyed it thoroughly. The author seems to favor Chardonnay dominated blends and BdB Champagnes. If you like more PN dominated Champagne (as I do) then his ratings may not be all that useful. Nonetheless, I was in general agreement with most of the ratings. The printing stock, layout and pictures/graphics are amazing. However, my first copy had a bad binding that fell apart after a couple of weeks.

On a high level the things you want to know about the different Champagnes. I enjoyed having this book in the car whilst driving through the region and visiting the different Champagne wineries. A surprising amount of smaller Champagnes are covered by the author.

Thanks

Very big, a lot of glossy pages, well printed, with several cuvées, from many, many producers. A must to reserve for those which did not have access to World Wild Webb. As various years produce various quality of grape, it's already out of date but a reference for those who look for the big print. Hope they will find another way to communicate their tasting note without paper.

Great overview about the history, wine-making, etc. Tasting notes are also very useful as a reference when buying champagne in the region (most small champagne shops in Reims and Epernay have this book available). In addition (and I must admit I haven't had the opportunity to taste 4000 champagnes), I do agree with 85% of the notes for the wines I have tasted! Strong buy!!!!

Un libro veramente bello... Ben fatto un must per ogni appassionato di champagne..... la voglia di berli tutti ti prende fin da subito....Un'ottimo acquisto che consiglio a tutti gli appassionati di questo straordinario vino....Fla
