## Synopsis

2015 Goodreads Choice Awards - Nominee in Best Fantasy After surviving a round-trip to hell, Piper figures she can survive anything. After all, she just lived through the devastating loss of her Consul apprenticeship and a torturous stint at boarding school. How much worse could it get? Well, she wasn't expecting a group of crazy radicals to burn her home to the ground and take her prisoner. The Gaians, a.k.a. the crazy radicals, plan to rid Earth of daemons and they want Piper to help them. In exchange for her cooperation, they promise her the answer to all her problems: magic. With her own magic, she could reclaim her apprenticeship, the only future she's ever wanted. But her magic comes at a price--it could kill her. With the life she's always known crumbling around her and her future slipping from her grasp, she needs Ash's help one more time. But the greatest danger of all lies within her, and no matter what she does, she may lose everything--including him.

## Customer Reviews

This is the third book in the Steel and Stone series by Marie. I just love this YA urban fantasy series! This whole series has a wonderful world, with wonderful characters, tons of action, interesting magic, and some romance. I have devoured all of these books and find them incredibly hard to put down. Piper returns from boarding school only to have her home Consulate burnt down around her. When she wakes up she finds that she has been kidnapped by her mother and the Gaians. The Gaians want to unlock Piper's sealed magic and offer Piper the chance to help lead the Gaians in a rebellion against the Consulate. However when the seal on Piper's magic is broken things don't go as planned and her very life is at stake. Now Piper and crew must go on a quest to find a healer who can help her control her magic. It's a quest that will answer many questions about Piper's past. This has been such an excellent series. I love the characters, the world, and the magic. The book is incredibly easy to read and super hard to put down. I will admit a bit part of what makes this book wonderful is Piper's relationship with Ash, the Draconian. Ash is still such a mystery and such an interesting character. The scenes between the two of them are absolutely engrossing and captivating. Piper is an amazing character as well. She goes through many trials and much pain in this book, but some of things we learn about her abilities and past are amazing. This is one of those series where things just get more and more interesting the longer you read it. I love this world with Earth, an Overworld, and an Underworld. This book expands on our understanding of these planes of existence. You find out more history behind this world and behind the conflict between the Overworlders and the Underworlders. The action scenes are amazingly written; it's so easy to picture what is happening and the story is absolutely edge-of-your-seat engaging. Additionally there is a lot of humor in here and witty dialogue that make the book very entertaining. Overall this is just a perfect urban fantasy read. This book is a perfect blend of interesting world-building, amazing characters, action, romance, and fascinating magic. Really this book just has it all. Right now this is one of my favorite urban fantasy series and I am dying to read, Reap the Shadows, when it releases. This whole series is highly recommended to urban fantasy fans.

Great third book in the series. I don't believe this can be read as a stand-alone book. It pretty much drops you where you left off at the last book and if you don't know all of the characters and previous stories, I think you would be lost. Anyway, love how things are going romantically for the heroine. We get some resolution for that. Also, we find out why our heroine is the way she is in terms of her "power" and it's a whopper. I love all of the twists and turns this truly talented author takes in getting her story out there. The only reason why I detracted 0.5 stars is that this story ends on a cliffhanger and I really hate those. I really wish authors would stop doing that - I don't mind reading series but I would like each book to end on some sort of resolution to the storyline for that book so that I'm not out to kill when the last chapter ends. If cliffhangers don't bug you, then this would probably be a perfect read for anyone who loves urban fantasy/paranormal romance. Highly recommended series.

Wow. I just finished this third book, and am thoroughly impatient for the next one. Waiting is not going to be fun. This book stepped out there into a much more mature and thoughtful experience. The growth of the characters in this installment is substantial, particularly the last third of the book. Piper moves from this book as an older and wiser girl who understands the stakes, and more importantly, is willing to step into the darkness on her own. I was really impressed with the improvements in writing the author has made. It's almost as if she moved forward with the aging of her characters. The only other author I've really seen do that successfully is J. K. Rowling. I'm sincerely looking forward to the next book.

\*I received an ARC in exchange for an honest review\*As with the first two, I loved this book. The character development was there, the plot moves quickly, and the action scenes that we have come to expect took a new turn in this novel. I don't want to give away any spoilers if at all possible but I have to say that the developments between Ash and Piper and, of course, the overprotective sibling angle were AMAZING. Piper developed even further and really matures as a heroine, learning to view herself from outside eyes and make better decisions regarding her actions by balancing how she is interpreted with what she knows to be true about herself. You also get visuals for an entirely new world and some very very very key loose ends are tied up very nicely (only to give you new ones to wonder about instead, of course). I didn't even realize I was through the book until it ended - there was so much going on and I didn't have time to think about what could happen next because so much was happening so quickly. My favorite part for Piper is towards the beginning, when dealing with her mother's offer - when offered something that she has wanted her whole life she refuses to accept it with the many dangerous strings that would come with it out of loyalty to the people she

loves. It's just a perfect example about what makes her such a wonderful protagonist - she still has her faults but she actively grows in each book and becomes more admirable. I just loved these books, and this one might be my favorite of all. This book hasn't even been released yet and I'm desperately awaiting the next one. I recommend these to all of my friends who enjoy YA and enjoy this kind of writing (which really balances the dark with the light - without ruining everyone's happy endings). If you're still reading this rambling review you should DEFINITELY be reading the book. It's way better. You won't regret it.
