# Dark Planet Falling: (Dark Planet Warriors Book 2)

## Synopsis

The Prince Prince Xalikian Kazharan has a dilemma on his hands. Now that the Kordolians have landed on Earth, he somehow has to convince an entire planet of Humans that his people mean them no harm. It's easier said than done, especially when one's race has a reputation for brutally conquering the Nine Galaxies. Perhaps this stubborn female journalist called Sera Aquinas, who thinks she can just walk up to his front door and ask for an interview, might be able to help him. But first, he has to gain her trust, and that's not so easy when her presence drives him to distraction. The Journalist Sera Aquinas doesn't trust the charming amber-eyed Prince when he says he doesn't want to take over her planet. As a hardened journalist, she's seen her share of duplicity and corruption. So when Xal tells her the Kordolians are looking for Human females, she thinks he's messing with her. Seriously? Who would believe that lame excuse? She has to admit however, that Xal is one fine looking alien, and a part of her is curious. It's absolutely far fetched, but what if he's telling the truth? What if Humans and Kordolians are compatible? And when it comes to Xal, why does her body keep betraying her when her head is telling her to get the hell out of there? Warning: this book contains swearing, violence, sensual sex scenes, silver aliens with fangs and a little dose of insta-lust. If you're sensitive to any of these things, you may want to think twice before reading it. It's definitely recommended for readers aged 18 and over. Dark Planet Falling is Book Two in the Dark Planet Warriors Series. It will probably make more sense if you've read Dark Planet Warriors first, although that's probably not absolutely essential.

## Customer Reviews

This was an easy read, very enjoyable, and I love how this author has set up her world and created a unique look to her aliens. And now that Kordolians have arrived on Earth, there's so much she can do with this. The writing flowed well, just a handful of editing errors/typos. I love these big, silver alien males with the fangs and black claws, and Xal with the golden/amber eyes and long white hair and black horns. I just have a vivid picture of them in my mind, and I love that. For all that Xal looks like a beautiful demon come to life, he's a surprisingly sweet hero. I guess I like my alien heroes a bit more like Tarak, gruff and icy, but Xal is sexy, too, and he matched well with Sera. She's described as having light brown skin, dark hair and eyes, a toned and lean body, and she's pretty tough and bold. I also liked that she's physically scarred and tatted, and in Xal's eyes, she's exotic and beautiful, his human. Tarak is still the one for me, though. I liked his story more than Xal's because there seemed to be a stronger dynamic between Tarak and Abbey. There's insta-lust in this, which is different from Tarak and Abbey's romance. From the beginning, Xal is sweet, Sera is interested, and I would have loved more tension there between h/H. But I did enjoy this, such an interesting set-up, and I look forward to reading more sexy aliens from this author. Tarak and Abbey get a follow-up book next, and I'm super happy about that! I love that General.

This novel is a great sci-fi romance. All of her female characters have such spunk and I don't get the feeling they are pushovers, ever. Having a strong willed woman makes these books so much more than just a simple romance read. They add a level of depth. I would definitely recommend reading the books in order, or at least reading Dark Planet Warriors first. You might be a little lost without reading in order, but it isn't necessary. Although, "looking for human females", is a trend I've noticed in sci-fi romances, I still find these books to be original and extremely interesting. She's done a good job creating the world around these characters, unlike other authors. Just writing this review makes me want to pick up my kindle and start reading these novels all over again.

This is Book 4 in the Dark Planet series. This one tells the story of Prince Xhalikian and Sera Aquinas, a journalist who wants to find out why the Kordolians are seeking asylum on Earth. Sera

has a hard time believing that the Kordolians just want to integrate into Earth's Human society. The Kordolians have a reputation for being brutal warriors who conquer all they see. However Sera quickly realizes that all is not as it seems. The first 3 books are more of a mini-series centering on General Tarak and Abbey and why the Kordolians want to live on Earth. This book is a great addition to the series and I definitely recommend the entire series.

I am so happy to have found Ms. Carven, as she is an AWESOME writer. Her writing skills are very hard to beat; artistically and structurally her writing is very solid. This book's characters- Xal and Sera- were a fun couple, and complimented each other very nicely. Xal is a sweet man who though he clearly is not a military man can still talk the talk and then walk the walk. He might even be called a predator posing as a house pet. Sera is a strong and well-abled woman who has had a rough past, and though it has made her stronger it hasn't tarnished her personality. They were a nice foil for each other (I do agree with another reviewer that I like Abbey and Tarek more, but just because I love growly alpha men and not because of any short-coming from the author). The author always gives great smexy-time, and beautifully written as well. So glad to see on Ms. Carven's FB page her upcoming novels in the series ~ gave me a total fangirl squeal. This is one of the few authors that I follow who is an automatic buy for me. You can read her books with total confidence that you will get a wonderful and well-written story.

This series is great. It's not same old same old. There's just something about a big silver with white hair, fangs and a nice pair of curved horns Alien who is a true bad ass. I like that they fall fast and hard for human women. This is an exciting and scary adventure, oh and sexy as all get out. These two each have their emotional scars and are very good for each other. I definitely recommend this book and boy am I looking forward to the next book. Enjoy! ~~~~~

This book is the weakest point in an otherwise great series. I had hoped for a more driven and adventurous storyline about the Dark Planet Price. Halfway through the book the story improves.

Just started read this series yesterday! quit writing reviews but sometimes I have to say EnjoyHappy Reading. Looking forward to reading the next one.

Xal (the Prince, met him in the 1st 3 books) & Tarak's & Abbey along with the crew on the ship "Silence" have come to Earth so that the men can find mates. Xal finds his when Sera knocks on his

door for an interview & then she also decides to help him & Tarak make the other warship go away. While on the other warship with the evil men from Xal's & Tarak's old home world they find themselves falling in love & protecting each other. This was a very good book & I will definitely be reading more of this series.
