Best Sellers Rank: #1,640,547 in Books (See Top 100 in Books) #44 in [Books > Travel > Asia > Russia > Moscow](#) #304 in [Books > Travel > Asia > Russia > General](#) #12309 in [Books > Travel > Europe](#)

Customer Reviews

fast shipping, but the map will not help you for Moscow center city trip. inside map, the most important center city in this map give to you little information. some street address are wrong or not exist. if you go Moscow by yourself. don't use this map.

I bought this atlas to plan how I'll be getting around for an upcoming vacation to Russia. The maps of the Moscow region are clear and readable to anyone with the rudimentary ability to recognize Russian language towns and routes. Although not a public transportation map, I was easily able to take written bus/metro directions forwarded by a friend and follow the route from the airport to their home in an outlying suburb using this map and feel I would be able to navigate the route either via public transportation or rental car. The highways and secondary major roads are as easily recognizable on this atlas as on any comparable US road atlas. Once you get out of the metropolitan areas into the countryside, the maps become less detailed, the same as they do on most US general travel atlases. In summary, this map will get you out of any major city and down any major highway to the town you are traveling to but, like most similar US country-sized travel

atlases, if you want a detailed street map of some obscure village out in the sticks you will need to scrounge up a second small-town map (a Russian "Arrow Street Atlas") once you get there.

Can't wait to use this English and Russian map of Moscow. So few good ones on the market and so helpful!

We just got back from Moscow. We used this map a lot, and had no issues with it.
