Understanding Coding By Building Algorithms (Spotlight On Kids Can Code)

Synopsis

This detailed guide explores the historical development of algorithms and how they are used as a way of teaching computers to work through problems. Named for Persian mathematician Muhammad ibn Musa al-Khwarizmi, modern algorithms and functions make programing more efficient. Algorithms are simplified for readers using words, flowcharts, and pseudo code to build a beginning understanding of algorithms and how they are used in our modern, computerized world. Young coders and STEM students are sure to strengthen their technical skills with an in-depth and fun exploration of this essential coding topic.

Book Information

Series: Spotlight on Kids Can Code

Paperback: 24 pages

Publisher: PowerKids Press (January 1, 2017)

Language: English

ISBN-10: 149942793X

ISBN-13: 978-1499427936

Product Dimensions: 6.8 x 0.3 x 8.3 inches

Shipping Weight: 4 ounces (View shipping rates and policies)

Average Customer Review: 1.0 out of 5 stars   1 customer review

Best Sellers Rank: #818,663 in Books (See Top 100 in Books)   #62 inÃ Â Books > Children's Books > Computers & Technology > Software   #146 inÃ Â Books > Children's Books > Computers & Technology > Programming

Age Range: 8 - 12 years

Grade Level: 3 - 7

Customer Reviews

This book is for beginners who no prior knowledge of computer terminology. In my opinion more suitable for elementary grades. The book is a collection of 25 printed pages of material which includes images etc. Doesn't delve in detail into any logic nor does it have any exercises for practicing. Returned it the next day.
