Starred Review. As infectious as a baby's first smile, this celebratory book will enchant any family with a newborn to love. While ostensibly exploring a baby's anatomy, Adler's sunny poem and Nakata's ebullient watercolors demonstrate not only a baby's exploratory joy but also the palpable delight a baby brings to a family. The satisfyingly predictable pattern of verse lends itself to interactive hugs and tickles. A closeup illustration of the roly-poly baby (Baby's got eyes,/ bright little eyes) is followed by a page divided into four illustrations (Round as pies eyes./ Just the right size eyes./ Like an owl's wise eyes./ Peeka-peeka-boo). The question Who loves baby's eyes? (later asked about nose, ears, tummy, etc.) is answered at the turn of the page (Me, I do.) as Nakata shows the baby interacting with different family members. A final verse and spread featuring the whole clan (parents, grandparents, brother and even the dog) provides an adulatory conclusion. Although the book is recommended for those under age two, it is especially suitable as

a new-baby present for any member of a warmhearted family. Up to age 2. (June) Copyright © Reed Business Information, a division of Reed Elsevier Inc. All rights reserved. --This text refers to an out of print or unavailable edition of this title.

PreS Through bouncy verses, children follow a toddler's antics as her grandparents, parents, a brother, and a pet dog celebrate everything about her, from her eyes to her tummy to her toes. Baby's got ears, /cute little ears./Smaller than bunny ears./Stick out kinda funny ears./Hearing everyoney ears./Baby's got two./Who loves baby's ears?/Me! I do! Cheery watercolor and gouache artwork breaks the spreads into full-, double-, and quarter-page images. Despite the use of baby in the title, toddlers are the more appropriate audience for the book's pastel color palette and playful details. This is a lively lap-reading experience for the very young and their grown-ups, likely inspiring a dose of tickling in the process. Rachel G. A really lovely book- classic listing of all the cutest baby parts, with a twist: the rhyme scheme. You have to read it out loud a few times to really get it, because it's not the typical rhyme pattern of so many children's books, but once you get it, reading the book out loud is just as fun for the adult as for the child. The illustrations are also really beautiful and perfectly whimsical.

I bought the ebook version on my Galaxy S7 Edge but the screen wasn't big enough to capture baby's attention and fully enjoy this book. It was also difficult for me to read the ebook. I asked myself if it was good enough to buy twice. I eventually bought it again, board book this time, because the rhyming words were stuck in my head and it is such a sweet story. This is much better than Guess How Much I Love You. The board book is sturdy with baby-captivating, colorful imagery. It is a pretty good size, not too big or too small. "Round as pie eyes... Just the right size eyes!"

We actually received the hard cover copy of this book through the imagination library, a program that sends my girls a new book every month. This book quickly became my 11 month old daughter's favorite book. Unfortunately, she loved it so much, she would pick it up by the pages and carry it around, tearing every page. I bought this board book as a replacement, much better for her age! Very sweet book, she is now 15 months and it is still her favorite. She has learned where her eyes, ears, nose, tummy, legs and toes are by reading this.

This book, following the day of a baby and the people who love her, is absolutely adorable. My toddler loves the cute illustrations and the gentle rhyming prose.

This one goes WAY to the top of our list of favorites. I ADORED the illustrations and the format and the word repetition make it perfect for baby learning more about their body and learning more about reading and books as well. If only all board books could be so reasonably priced, beautifully illustrated, entertaining, and educational all at once.

Love, love, love this book! It's definitely a favorite at our house. We sometimes sing the book as a song, which delights our son. We're charmed by Nakata's watercolor illustrations and Adler's tender text. Highly recommend this for families with babies and toddlers.

Such a cute book! We have only had it a week but hope it helps our baby learn his body parts. He loves it so far!

the cutest, sweetest book ever! originally borrowed it from the library but after 3 renewals we knew we had to buy a copy for ourselves as it was an imperative part of my daughter's bedtime ritual. I like that it's a board book - she can't rip these pages :) really recommend!
