Customer Reviews

I got this for use at a summer Zombie Apocalypse camp as a read aloud as the kids are waiting for everyone to arrive. They are definitely having fun with it! We have died every single time so far, and I am beginning to wonder if there is a way to survive in this book! Even if there isn't, this is a blast! The writing is very simplistic, and each action sequence before you make a choice is fairly quick. There is not a lot of story development in this novel, but it's fun. For the past two Zombie Apocalypse camps, I've used a different choose your own adventure zombie novel, which was very rich and developed, but this one is fun, too. The pictures are a nice addition, and the kids really like them. It's a fun novel, but it's not a great novel. I imagine most kids will enjoy it! It's good as an adult

read aloud, but younger readers with average ability should be able to read this independently.

I found this book when searching for Choose Your Own Adventure books. I was a bit disappointed at how short the book is but the story makes up for it. I've read three different endings so far. I'm really impressed with the feel of the paper, I love the images too. If you're looking for an adult book, ya know explicit, this isn't the book for you. But if you are looking for a good read that you can share with the kids or just by yourself, pick up a copy of this book. I'm pleased enough I want to get a couple more from the You Choose: Doomsday series.

My son loves these books!!! If you have a reluctant reader at home, pick up one of these choose your own adventure books.. allowing your kiddo to be a part of the story and choose the direction it will take, puts them in control and makes them hungry for more!!! Which is every parent's dream right!!!!

This book was thinner than expected but it has been great fun. I bought it for my son's 12th birthday and we all had fun with it. My daughters and I also took turns reading this book to see who could make it. The best part was my kids sharing their stories and explaining to each other why they made the choices that they did. The pictures inside the book were very good as well. We will definitely be getting more books from this series.

Oh so good. I died twice but with a little cheating we made it to end. :) Love the series.

My 8 year old really enjoyed this book.

My daughter loved this book. A great book to read over and over again.

My eager 3rd grader read through this book twice on the first day (different story each time since you choose your own adventure). Great for young readers into spooky/suspense reads
