Customer Reviews

I praised the plot reviewing the first book, I will now just talk about the artwork. Brubaker is an amazing artist. His ability to visually tell a story is top notch. A wonderful story!

Nice art. Decent story. I would not say a great story, but not bad. If you like Jason Brubaker's art, you will like this book.

I had already read every page before the book came out. Jason Brubaker created reMIND as a webcomic, ironing out any bugs before it became available in print. A fantasy that involves a young woman, her cat, mysterious creatures underwater, and... a brain transplant. Fanciful? sure. But Brubaker carries it off with marvelous art (unique style) that bridges the gap between incredulousness and believability. Occupies a proud space on my shelf beside Lil Abner, Zits, the Spirit and TinTin. You should find a space on your shelf.

Really great book. The style is so different from anything else I've seen. Very fresh. Great art, great storytelling, and beautifully printed with quality materials. What's not to like?

If you haven't read Vol. 1, you should before reading Vol. 2. This concludes the fantastic story with the same high-quality art and writing. I only wish I had backed it on Kickstarter because then I'd have the slipcover to hold the two books. Oh well, they still look great on my bookshelf. I can't say enough good things about reMIND - just buy it. You won't regret it.

Amazing art, story, and graphics. Thank you
