National Geographic Kids Beginner's United States Atlas

Synopsis

Learning about America is an exciting adventure with the new US atlas for kids— ages 5-8. Packed with maps, pictures, facts, and fun, it entertains as it educates. National Geographic's world-renowned cartographers have paired up with education experts to create maps of all 50 states, U.S. territories, Washington, D.C., and the nation. Large maps pinpoint the physical features, capitals, and other towns and cities of each state. Kids will discover the latest data and trends, colorful photography of each state and the Americans who live there. Key points reflect the latest information about land and water, animals, and people and places. Lively essays cover each region of the country. Front matter includes information on what maps are and what this atlas will teach young readers.

Customer Reviews

"Each of the easy-to-read maps has been custom designed for children, and full-color photographs supplement the lively text and make people, places and natural wonders come to life." -- San Diego Family
"Rich, colorful photographs and detailed maps are appropriate for younger readers." -- School Library Connection.

NATIONAL GEOGRAPHIC KIDS inspires young adventurers to explore the world through award-winning magazines, books, website, apps, games, toys, television series and events and is the only kids brand with a world-class scientific organization at its core.

We have had a lot of fun with this. Kids get NO geography in school so this is excellent enrichment. The maps are good. The keys are usable. Graphics are fun. I liked that the states were listed alphabetically in the index because my one complaint would be the states being grouped into weird groups, making it difficult to find the states immediately. Everytime our lesson referred to a state, we'd quickly cover that state-the capital, the state flower and bird, Their products, National Parks, Native American Reservations and anything else my student wanted to discuss. For instance, one book we were reading was about the Wright Brothers so we looked at Ohio and North Carolina.

Bought this for a three year old who know alls his states and wants to know more. It's a book he won't outgrow for a long time. Colorful, interesting, and fact filled.

My grandson loves this atlas! He is almost 5 and is so interested in old atlas found this here on ..my daughter said he takes it everywhere they go!

My grandson asked me for a book of maps. I really like it. It has interesting facts and enough map information to keep his interest.

I bought this because our other state atlas seemed a bit over my son's head. This atlas is okay but I only gave it three stars because I feel like they put a lot of random info in it instead of touching on key points of each state. The information is accurate but I was hoping they would focus more on what the states are known for.

My four year old is OBSESSED with this book. He can't read yet, but he has memorized most states and loves to learn their capitals. He is learning maps and states at preschool, so he is learning there, but this is an excellent book to have at home to learn more about each state.

Comprehensive for kids/parents too

great for our 5 year old son
