# The Land: Raiders: A LitRPG Saga (Chaos Seeds Book 6)

## Synopsis

Dr. Aleron Kong is the Father of American LitRPG. Join him in his best-selling LitRPG saga, The Land. The journey of Terrifying Adventures, Dangerous Enemies and Heart Stopping Wonder continues here. •This is the world you were meant to fight for! •Welcome to the SIXTH vivacious installment of Aleron Kong's, Chaos Seeds series. The time of hiding has passed. The Mist Village will make itself known. Goblins have invaded Richter's lands. Though the first incursion has been defeated, the anger of Chaos Seed remains. Those who challenge Richter's power will learn there is a reason all creatures fear the mist | it is the home of monsters. For the first time, Richter takes the battle to his enemies. He will live up to his name, and the very Land will shake with this power. With his allies, the Wood Sprites of Nadria, the army of the Mist Village marches to war. Richter has been a healer, an enchanter, a dungeon diver, and a killer. Now he becomes something more. He becomes a RAIDER! This is a world of wonder and horror. This is a world of pain and joy. This is the world of monsters | and the brave men who battle them. Welcome back my friends! Welcome back | to The Land!

## Customer Reviews

In many ways, this is the best installment in the series. From the first page, picking up where book 5 left off, it's the Mist Village against foes which are out of their weight class, and there is no way out but through. The book is merciless. Richter and his village are being pulled into conflicts and the tension and weight of choices are palpable. Time matters. Decisions to delay or engage matter. His alliances are two-edged swords, demanding more of him, not just giving. Richter has to call on everything he and his allies have built over the past five books and -- very satisfyingly -- his lieutenants have grown into their roles (Caulder, Terrod, Tabia, ...). It isn't Richter against a dungeon or a crypt mistress or a spider queen, or even a rock troll. It's the Mist Village gathering and striking at an existential threat before it is too late if it is not already.

First, thank you, Mr. Kong, for your efforts, creativity, and talent. I've become deeply immersed in your universe with no chance of escape and where the only pain that exists is the interminable wait for the next book to be released. I experienced just about every emotion reading this latest work and finished the book happy, stunned and panting for more!! am most grateful for being able to experience your world and wish you luck, happiness, continued success and, most importantly, health so that you may continue to enthrall us with your tales!

Chaos Seeds Books are brilliantly written. Enjoyable, believable, and the characters are well developed. I've read a lot of good stories about characters who get put through a lot, or are overpowered, underpowered, and get the feet chopped off but still continue walking kinda of thing. However, these books keep it reasonably real. Nobody wants to read about a hero loser. We want our hero to win, not get everything they want and become an OVERPOWERED GOD after two chapters. This series was a DELIGHT to read. I've read series 1 and 2 of other books where they kill off the main characters beloved companion or pet. While bad things happen even to GOOD HERO's.. I put the books down at that point and don't continue the series. This series is every bit deserving of the 5 stars, because it gives the reader and very enjoyable, realistic story of the life of the main character and his companions. High recommend this to anyone that enjoys fantasy as much as I do.

No author in the LitRPG category shines like Kong does. The story is excellent, with action, drama, humor, and a continued progress and complexity that makes it almost impossible to put down. I defy any reader to know for sure where the story goes from one moment to the next. Likewise the

characters: their personalities are strong and unique: no 2D cut-outs here! But they grow, they change, like any good characters should. Their interactions are real, and the frequent humor in odd places is as welcome as it would be in any action movie. Also a very strong "Respect" for the editing! 5/5 stars there! No homonyms, no grating phrases, no shocking tense, gender, or spelling errors. Awesome. Just the smooth reading flow other authors might miss. This is important, because editing is a chore. It takes so much time to polish a story you're eager to hand off to a long-suffering fan base, but there's no substitute for quality. This is a polished piece of work. Finally, the RPG element. Too many authors use it poorly, where you do not feel a connection to "the system", or it's so strong that there's little personality to the story and characters. Not so here! There's a perfect blend of system activity and definition coupled with an openness that makes it all feel right. You do feel like anyone could do or learn anything here, but that there are strong rules and controls surrounding it. Another problem LitRPG stories can have is too many system messages, obviously used to fluff up the word count and/or to hide poor work. Once again Kong does this very well, where when a bulk of messages appear it's due to strong character advancement, and he uses ellipses to skip unnecessary repetition. (I wish all LitRPG authors did this!) He also shows us character sheets when appropriate: just before or after important changes, or for new (and usually important) NPCs. The stat sheets are done so well that they're worth reading, and even welcome. This is still a relatively new genre, and each good author has a unique voice, and Aleron Kong is singing with the best of them. I highly recommend this book and the series to anyone.

This was the first book of this writing style I read. I will say that I am hooked and absolutely will be reading more. I couldn't believe the detail the author used and how he made sure you understood the characters. I loved the progression of all of the characters and the storyline. It takes a lot for me to be hooked on a book so hard that I can't put it down and this one did that for me. To the point that my wife yelled at me for not paying attention to her. I felt like I was right beside Richter through the whole book. I will definitely be referring my friends to this series

If you like books, and enjoy fantasy writing; it will definitely be your thing. If you LOVE books, and cherish fantasy works you will be hopelessly (and happily) lost. I started book one and with each work found myself forlorn at the end. The writing is SO good you will blow throw the books and lament only the fact that they aren't 10,000 pages long. It's THAT good. After 5 days I started the series again. It's just as good the second time through. All hail Dr. Aleron Kong. Long may he reign!
