These are great.

May not give it away. With twelve inches of snow on the ground it's a treat to sit here and look through it and forward to spring.

Saw it at a botanical garden, took a snap shot, and then bought from when I came home. My backyard has lot of trees and it's good to have this.

Great for educating children.

I love fandexes! So much information and such a fun way to learn it.

My 7 year old daughter received this as a christmas gifts. The pictures are beautiful and the facts are interesting. She can't wait for spring when we can go wildflower hunting and identifying together

:-) My 5-year old boy (on the other hand), shows no interest in flowers... go figure ;-)

Now we can name the wildflowers we see each year. So compact, you can keep them in your glove box or console. Great for children as well.

Very nice information
