Customer Reviews

Dad's Expecting Too! is like a dude's guide to understanding the most inner-workings of the entire nine months. From tips from veteran dads to illustrations of the week-by-week growth of the baby, all the bases are covered including the most mysterious and oft-feared pregnancy topics: pregnancy sex! For the soon-to-be daddy, this is the perfect new read.

Harlan Cohen is one of the most widely read and respected syndicated advice columnists for people in their teens and twenties. His column, "Help Me, Harlan!," is distributed by King Features Syndicate. Harlan regularly tours high school and college campuses giving presentations to students, professionals and parents. He lives in Chicago, Illinois.

I stayed ahead of where my wife was during the pregnancy, I always felt informed and had answers to questions that came up. Just this one book kept me informed during the process. I've given copies to several of my friends who are expectant fathers.

Useful in some areas but does not warrant 500+ pages. Made it about halfway through the book and decided it wasn't worth my time when the book keeps telling you the way you should and shouldn't act so as not to offend your pregnant partner. If you can't start to play that aspect by ear as you're going through the pregnancy, then that's something you have to deal with that no amount of reading will help. If you need advice on where to birth or what to buy to get prepared, this book might be beneficial to you. However, in our case, we do our own research and make decisions based on that. Things will happen during the pregnancy that will cause stress, heartache, and fuel tempers, and that's when you as a couple have to deal with situations in your own civilized way without either one taking the brunt of it all or getting walked all over.

My husband and I both loved this book! It was so much more straightforward than other pregnancy books and the humor and true stories were much appreciated!

Had laughs and a cry in the same paragraph. Going to be a dad and now know how awesome it can be.

Its basically a bunch of stories of how some guy messed up, followed by what to do correctly.

Just buy this book. I am reading for the second time. The book is well written for either gender but guys it really gets us and the way we interpret information!

My fiancÃ© (and I) thoroughly enjoyed this book. The author is pretty funny and keeps things light but it is packed with tons of info

My husband is finding the book informational. Not a huge fan of the writing style, but overall it's good.
