Grade Level: Preschool - Kindergarten

Customer Reviews

The quality and artwork of this book set is great. Comes in a cute little box. The reading is simple and quick, but I feel like the content is lacking. Sure it's for younger children but there's no real story line or point to any of these books. They just look good...my four year old loves em. Don't think I'll be purchasing anything like this again.

This set of books is so cute and a great value. My daughter loves Doc Mcstuffins and books so I thought this would be perfect. The price is great and I love that it is a whole set. Nice and easy to read with large words.

Very disappointing... All 4 books are about nothing....no story line at all. Nice quality and well done, but absolutely no point of getting it, especially after watching at least one video on YouTube... To

bad it's already open and i cannot return in...my 2.5 year old adores the characters of this cartoon, but didn't spend more than 2 sec on this particular book...

My daughter loves Doc McStuffins and this box set is great. The box keeps them in a nice condition. She likes looking at the pictures and having them read to her time and time again. She is only 15 months but she will be able to grow with these books for sure!

Bought two sets. Girls love them and they withstand the most high strung toddler "reading" them constantly!

Board books so great for outlasting toddlers wear and tear and the stories are also short and simple enough to hold her attention

Bought these for my 5 year old daughter. They are great quality hardback books.

Great books for a little reader that loves the doc.
