I love it!!!!!! It's Great!!!!!!!!!!!!

This did not have as much information or inspiration as I had hoped. Its a nice afternoon reading experience however.

Not an encyclopedia, but a short book with several easy projects. (I, for one, like the bench) Each section of the book is devoted to an aspect of "cottage style" (lighting, fabrics, etc) with a few simple project examples.

The book had examples of decorated rooms but it also had too many pages devoted to what amounted to craft projects and furniture making none of which I would ever consider making.

I liked it very much!

Product as described. Quick service.

very happy fast service would use again

All great, thank you.
