Blueprint For A Winning Daily Fantasy Sports Football Optimizer

Synopsis

Blueprint for a Winning Daily Fantasy Sports Football Optimizer is written with the novice Daily Fantasy Sports player in mind. It provides you basic knowledge of DFS sports, but most readers will find this book valuable due in part because of the step-by-step approach of building a tool called an optimizer. By creating an optimizer, it will assist in drafting multiple Daily Fantasy Sports football rosters and save you time in the process. The book also contains VBA and Excel code to help you reduce time you spend researching data, news, and injury reports so you can draft more DFS football teams. A DFS player will be able to take more control of your DFS strategy by using code to mine data to substantiate hunches you may have regarding a potential Fantasy Football lineup. With the ability to customize data, you differentiate yourself from the millions of competitors who has access to the same data. This book is only the first step to building a football optimizer or model that you can improve as your DFS strategy improves.
