Synopsis

For the first time ever, a book on how to pick up hot women by a hot woman! Penthouse columnist Dr. Z shows you how it's done. You're at a party, or just a coffee shop, when suddenly -- there she is. Across the room is the hottest woman you've ever seen, one who makes your palms sweat and your breath come faster. She's amazing, a real knockout. But you're just an average guy, with average looks and an average job. What chance would you ever have of scoring with a babe like that? In *Dr. Z on Scoring*, Dr. Victoria Zdrok shows you that it's possible to not only pick up your hottie but also charm and seduce her. rubbish. Every single bit of it. rubbish.Ok, well some of it IS just common sense : "figure out the type of woman you are attracted to and cater that that type".But all the talk about how you can get any

hot woman you want using her "methods" is pure rubbish.

I sold this book off a while ago. At first, I was encouraged by Dr. Zdrok's advice---as a woman, a psychologist and a former Playboy playmate---but in the book she had claimed that she doesn't like pick-up artists. However, she is quoted in a few other books that men should follow the advice of pickup artists. So, which is it? Listen to you? Or don't listen to you? There are also other allegations to her personality that seem to have me question the fortitude and legitimacy of her character. In the end, even after talking about the pros and cons of this book with my therapist at many lengths, I felt like this book wasn't for me.

Without a doubt, this is one of the best pick-up books you can get your hands on!!! I cannot say enough good things about it. Get this book and DIGEST it and your game can soar! What are you waiting for?

Really good if you give it a try. 10/10 will do it again

This book is good for some things, and not so good for others. It definitely has good advice in terms of dress, grooming, and nesting (getting your place up to par). Where I think it lacks good or clear and concise information is in the actual interaction process. The problem is that she cites a lot of research studies, which sound good on paper, but don't reflect the real world. For instance, she claims that negs (a back-handed compliment) do not work, her proof is a survey of women. What woman in her right mind would say "yeah, if you insult me I'll be attracted to you"? But clearly, negs do work. They've worked for me many times and many other guys that I know personally. The reason for this discrepancy is that women are not entirely conscious of what they're attracted to. They claim they want a sensitive nice guy, but end up sleeping with more dominant, aggressive, and narcissistic men time after time. Still, it's not a bad book to read, but certainly following this advice won't actually get you a playboy model. For that you're better off taking advice from a guy that's good with women.

Great book more information than you can expect with scientific background to back it up

it's ok /.. ,... .. .

An outstanding book on dating.
