Customer Reviews

The literature in the book is exactly what the title says it is & a little more. I gathered a lot from it already & am not finished with it. I was able to gain insight on where & what my in-balances were & it made sense as to why. I do recommend this book for anyone getting into the art of Chakra healing. Very informative & laid out in a sensible way.

I have bought this not only for myself but for friends as well. It is jammed with so much information. It touches on the stones/crystals associated with the different chakras. Also, it covers herbs, scents and also yoga positions with the chakras.

I was drawn to this book in an esoteric shop near my house. As a Reiki Master-Teacher

I've always been interested in learning about healing the human body and the Chakras play an important role in this healing. I've read books like 'The Complete Guide to Chakras' and they left a lot out. Here you can find it, I just wish it was in digital format.

great book for people on all paths of self enlightenment about chakras. I come back to this book again and again. It is very very detailed in the way its structured makes it easy to navigate for people with learning disabilities, such as myself. I carry this with me everywhere.

I live according to this book, i first borrowed it from a local store and after only a few pages i knew i needed to have a copy of my very own. it has so much good info in it and is set up very well, it has really helped me with my chakra work! i absolutely love this book and cannot say enough good things about it! everyone should have a copy!

I love this book! It is really good for chakra healing.
