I'm 32 and I find it very meditative and creatively stimulating." "The fairytale theme is prevalent throughout all of her work, and is nothing short of stunningly beautiful." "Selina Fenech's wonderful art is one to collect and color seriously." "Selina Fenech is an incredibly talented artist. Having a coloring book full of her images is such a delight." "Beautiful illustrations and so many of them all detailed so passionately."

As an artist, color is a thing of magic in my life. Color creates shapes, forms, and feelings in the artworks I paint. Laying color onto a blank page is when I feel closest to true magic, when I feel happiest and most relaxed, and it's through what I create that I share my love of magic with the world. Through my coloring books I want to share that same magic with you. The artworks in my books are based on my completed paintings, which I have painted over the last ten years as a professional artist. I have created the coloring designs to be intricate and detailed but still fun and accessible. There is something for lovers of meditative detail while simple enough to not be overwhelming for younger colorists. When designing my books I decided to print them with two copies of each design, because I know as an artist there are always so many possibilities! I wanted to give everybody the chance of a do-over with every design. Try a different medium, or a different colour scheme. Or a chance to share the magic with a friend, child, parent, sibling. Because sharing your creativity and joy of color is the best magic of all.

I own several of Selina Fenech's coloring books and so I am very familiar with her elegant artwork. This is her second book which features fairies as the main subject. The designs are beautiful and include close-ups and full scenes. As always with Ms. Fenech's work, the designs are fun with lots of imaginative scenes to inspire me. The designs are detailed and I find them fairly easy to color. While some designs have small details, the designs are not generally intricate with tiny details that are hard to color. I like to use markers to put down a base color and then to use pencils to finish off the details. I really appreciate that Ms. Fenech puts a framing line around each design. It gives me a natural stopping point and a more finished looking project. I also like getting two copies of each design so that I can experiment with different colorways. This is what I experienced while coloring in this book and testing my coloring medium on the paper: 25 x 2 of each design

Fairy inspired artwork by Selina Fenech  
Printed one side of the page  
Paper is white, thin, slightly rough and non-perforated  
Designs do not merge into the binding and there is plenty of room to cut out pages if you choose to do so. Most designs have a framing line around the outer edge  
Glue Binding  
Alcohol-based markers bleed through the page quickly. Water-based markers bleed through in spots. Gel pens and India ink pens leave shadows on back of the page. India ink can bleed through if you apply heavily or multiple coats. Coloring Pencils work well with this paper. I found that I could layer the same color for deeper pigment or multiple colors and I could blend easily using a pencils style blending stick. Both wax and oil based pencils worked well with the paper. Hard lead pencils can leave dents through the page. I like to use a blotter when working in the book. I use a page of card stock or several sheets of heavyweight paper under my working

page. It keeps seeping ink and marring dents from ruining the pages below.

Selena again continues to wow us with the next book in her series of fairy coloring books, Fairy Magic, Whimsical Fantasy. Inside are beautiful, intricate and Whimsical fairies coloring pages that totally take your breath away. I think Selena captures the very essence of what fantasy is all about and I strongly recommend all of her collections. Starting with this one Fairy Magic Whimsical Fantasy. I own them all and I strongly recommend them. They help with Zen, meditation, or if you just need to take stress away. The best part of Selena's books, besides the beautiful artwork is that she gives you two sets so that you can do both set of pages in different creative backgrounds. They're also perforated in you want to display them which I certainly will. Thank you again Selena for another wonderful book. I look very forward to getting your next one.

This is the first book by Selina Fenech that I have purchased and am in love with it. Selina does an amazing job with her illustrations, they are simply stunning and well thought out. Each image is printed on one side only which is great for using alcohol markers with, just be sure to place a piece of heavy card stock between your work and the next page. What I find interesting about this book is that there are two copies of every image, I think that's quite a clever idea because there are many times when coloring a page that I'd love to color it again using a different technique or color palette and find I can't unless I've scanned it prior to coloring, so the double images solves this issue completely. If you're a fan of fairies this book will not disappoint.

This is a beautiful book! I have all of her coloring books and get more enjoyment from them than any other books I have. The pictures are so detailed and turn out so beautifully. Am trying not to rush through the pages.

I love Selina Fenech's books. I have three and plan to buy them all. Her pictures have a lot of detail, but not so much as to overwhelm a beginner. They are fun to color.

Each picture is beautiful! As usual the create space paper is thin with medium tooth. I have had to use this paper before and you can get beautiful results with coloring in layers, gel pens and markers are possible, you do need to protect the next picture with a couple sheets of copy paper. I love the whimsical feel to this coloring pages. I give this book 5 huge stars. You can't go wrong with Selina Fenech's books! !

I adore this book! The pictures are amazing, and are fun to color and be creative. My all time favorite from this book so far would have to be Shy Rose, but I love each and every picture present. I am so glad you get doubles to be even more creative, and do different color schemes on each one. Thank you Selina Fenech for putting out such a wonderful book! I'd highly recommend this book to everyone who's interested in fantasy type coloring stuff! Have a nice day.

I really love this book. the artwork is beautiful and very very nice pages for us to color. I have many of Selina Fenech's books and this is one of my favorites. Its absolutely delightful!! I believe this is one book that I will color all of the pages.
