Nothing To Do With Islam?: Investigating The West's Most Dangerous Blind Spot

Synopsis

One of the most depressing realities of modern life is the regularity with which deadly attacks are carried out in the name of Islam. Almost as depressing are the invariable reassurances by Western political leaders and media elites that these acts of violence had “nothing to do with Islam”. Yet, niggling doubts remain. Why, if Islam is indeed a “religion of peace”, do these attacks keep coming? Why are the vast majority of acts of terror in our world today carried out by people steeped in the teachings of the Quran? With his new book, “Nothing to do with Islam? - Investigating the West’s Most Dangerous Blind Spot, Peter Townsend (author of the highly acclaimed Questioning Islam - Tough Questions and Honest Answers about the Muslim Religion) examines the evidence as far as the possible link between Islam and violence is concerned. He does this by carefully analyzing the foundational texts of Islam (most notably the Quran and traditions), as well as the canonical set of stock responses whenever such a link is asserted. The question whether Islam promotes violence could very well be one of the most important questions ever faced by Western civilization. It deserves more attention and analysis than a few glib sound bites. Nothing to do with Islam? provides you with the opportunity to examine this question from all angles and come to your own conclusions.

Customer Reviews

A truly magnificent book, both in its depth and accuracy. Did 9/11 have nothing to do with Islam? The Charlie Hebdo Attacks? The Brussels attacks? The Paris Attacks? The London Bombings? The Madrid Bombings? The San Bernardino Attacks? I can go on and on and on...the attacks are endless because Jihad is a doctrine of Islam. Nothing to Do with Islam is the missing ingredient so many illiberal apologists for Islam have been waiting for. What you teach people matters, what you believe to be the world of God matters. The Quran, The Hadith, and The Prophet Muhammad all endorsed Jihad against non-Muslims, and so we have Jihad. It really is that simple. Until more moderate Muslims and so-called liberals insist that Mosques, Imams, Muslim religious and political leaders not only denounce the acts of terrorism, but the words that inspire them, we will continue to lose the battle of ideas and the battle for our lives, way of life, and civilization. Nothing to Do with Islam? Read this book and then tell me with a clear conscience Jihad has nothing to do with Islam

Very good book detailing Islam in a way that many people around the world will find shocking. The book has 349 references so you can go to the authors sources and read them for yourself. I have read many books about Islam and this one is one of the best. Everyone should learn about Islam to help them understand what is going on around the world and why it is happening.

Knowledge is power. Remaining in the dark about the fundamentals of the Muslim faith and the stated mission to rule the world is the root cause for the brazen advances made by Islamists in the West including right here in the United States.

great book, easy to read, easy to understand.

Thank you for your insight. This is a must read even for Muslims. For Obama as well for this book clearly shows that Jihad is a part of Islam.

This should be required reading. So incredibly eye opening.

Very understandable, purchase a Qur'an to verify. Then let's push back.

If you really want to get a basic education on this topic, read this book.
