You Are Dead. (Sign Here Please)

Synopsis

You Are Dead. (Sign Here Please) is a madcap comedy of truly ludicrous proportions. After Nathan Haynes dies, he discovers that the afterlife is run by straight-laced bureaucrats, but when he refuses to sign his 21B he is punted back to life in his insane home city of Dead Donkey. He can't rest easy, though - the bureaucrats are out to get him and they will put his papers in order, no matter the cost. Will our hero die (again)? Will the bureaucrats trick him into filling the proper forms in? Will Nathan ever get to do his laundry? Find out in You Are Dead. (Sign Here Please)!

Customer Reviews

I bought all three books in this series because I liked the premise so much. I was unable to finish the first because it just wasn't funny to me. The author tried very hard to be cute but for me it just wasn't. Wasn't funny, wasn't able to keep me interested and wasn't worth my time. It's the first time I've bought a series up front and I won't make that mistake again.

I haven't laughed this much reading a novel since Mercury Falls. Cynics and fans of dark comedy

will find this uproarious. Others will find it merely hilarious. No one will be disappointed (well, maybe career bureaucrats)

If you want a certain amount of crazy, in that particularly Hitchhiker's Guide kind of style, this is a great choice. It's not too long, and makes for easy reading.

If you don't mind suspending reality in a fun and silly way this book is for you. Could've used a faster pace and less redundancy but fun anyway.

I took a chance with this book and was greatly rewarded. Its basically a travelers guide to the universe just a bit more silly and about dying.

The title hooked me and I just had to keep reading to find out what happens next. To say the least, I never want to visit the town of Dead Donkey, NV.

Very smart humor and well written. I struggled getting into this book to begin with, but kept at it. By the end I actually enjoyed this quirky tale. There is some very intelligent writing here. As with any book, it isn't for everyone.

Similar to Hitch Hikers Guide, but more off on a tangent loops. Found myself skipping pages. Left the book with a mudly positive mood.
