# Houses Of The National Trust

## Synopsis

The National Trust cares for a wealth of houses and historic buildings of all types, ranging from the grand to the quirky to the humble. A companion volume to the bestselling *Gardens of the National Trust*, this captivating book is a guide to some of the greatest architectural treasures in the country, encompassing both interior and exterior design of more than 250 properties. In addition to houses, the book also covers fascinating buildings as diverse as churches, windmills, dovecotes, castles, follies, barns, and even pubs. The book also acts as an overview of the country's architectural history, with every period covered – the medieval stronghold of Bodiam Castle, Tudor eccentricity in Hardwick Hall, 18th-century grandeur at Kedleston Hall, Victorian splendor at Tyntesfield, and the clean-lined Modernism of The Homewood. The book teems with stories of the people who lived and worked in these buildings: wealthy collectors like Charles Wade at Snowhill, captains of industry like William Armstrong at Cragside, prime ministers like Winston Churchill at Chartwell, and pop stars like John Lennon at Mendips.

## Book Information

Hardcover: 400 pages

Publisher: National Trust (December 1, 2008)

Best Sellers Rank: #753,555 in Books (See Top 100 in Books) #141 in [Books > Arts & Photography > Architecture > Vernacular](#) #363 in [Books > Arts & Photography > Architecture > Regional](#) #971 in [Books > Arts & Photography > Architecture > Buildings > Residential](#)

## Customer Reviews

Lydia Greeves is the author of *Fountains Abbey and Studley Royal and History and Landscape*.

\* Note: there is a new, revised edition of this book which was published November, 2013, which has additional images and information. It has the same title as this book, but a different cover, so just search the title here and it should come up as an alternative. If you are looking for an informative survey and overview of homes in the National Trust, this book provides it. The National Trust cares

for over 200 homes covering 1000 years of history from William the Conqueror to the present day this book tells us. The homes in this book are organized alphabetically, so it's easy to find a particular home. There is usually a page of text and an image of the home, its exterior or interior. Some photos constitute an entire page. The quality of images is excellent. To give you a sampling of the homes included in this book, the homes beginning with the letter A include: Attingham Park (1782), Ashdown (1660's), Antony (1700's) and Anglesey Abbey (Jacobean). B homes include: Barrington Court, Belton, Blaise Hamlet, Blickling Hall, Bodian Castle, and Buckland Abbey. It appears that most, if not all, of the homes in the National Trust are included here as the book is 350+ pages long. Other smaller buildings are included at the end of the book. Many of the homes have historic or cultural connections. George Washington's ancestor's home is featured here. So is Carlyle's home, the writer. Some of the grand homes are owned by the National Trust such as Petworth and Kedleston Hall and are included. Of course, some families still own their ancestral homes such as Althorp by the Spencers, Chatsworth by the Duke of Devonshire and Highclere Castle, so they are not included. This is like a colorful and expanded encyclopedia of great and historic English properties. You can use it as an introduction to homes which you are interested in learning more about, and then look for more books and articles on the properties of interest. I found it invaluable for my beginning library of English homes and style. I teach a history-design course on the subject and this book will be indispensable. It is full of fascinating information on each home. The kind of information which is included is historical background and significance of the building, architectural and decorative details, quirky historical anecdotes, and famous owners-visitors-events associated with the house. You will see where Newton discovered gravity at Woolsthorpe Manor and Buckland Abbey where Sir Frances Drake planned his attack on the Spanish Armada. The author has written several books on related topics, obviously knows a lot on the subject of historic homes of the National Trust and has included it. This is a worthwhile reference book. It will whet your appetite to want to learn more about these historic United Kingdom properties.

My interest in the Stately homes has been peaked when looking into this book.

Lavishly photographed and well written, a beautiful look at the most beautiful period in the history of civilized man.

This book surprised me with its wonderful detail and gorgeous colour photographs of many National Trust properties in England. I learnt so much more about each mansion and garden before I visited

and found the book to be an excellent resource and a pleasure to own.

perfect shaped coffee table book(square, but not too oversized)) with exquisite, amazing photos of England's gorgeous historic houses.

A nice book about houses of the Nat'l Trust.

If you are looking for an informative survey and overview of homes in the National Trust, this book provides it. The National Trust cares for over 200 homes covering 1000 years of history from William the Conqueror to the present day this book tells us. The author has written several books on related topics, and obviously knows a lot on the subject of historic homes of the National Trust. This is a worthwhile reference book. It will whet your appetite to want to learn more about these historic United Kingdom properties.

This is a beautiful guide to the houses of the National Trust. The houses depicted are all one of a kind with exceptional architecture. The book is loaded with hundreds of stunning color photos, each property is given at least 3-4 shots both interior and exterior. The lesser known properties get one but clear shot. The text is generously informative and highly accessible for experts and non-experts alike. This book is a treasure to own and if you can't pay visit to any of those amazing houses, then this sleek book is the next best thing.
