# Rich Dad Advisors: The ABCs Of Getting Out Of Debt: Turn Bad Debt Into Good Debt And Bad Credit Into Good Credit (Rich Dad's Advisors (Audio))

## Synopsis

In difficult times, debt can be a matter of life and death, happiness and despair. Controlling debt can bring order and calm. Mastering debt can bring wealth and success. As bestselling Rich Dad Poor Dad author Robert Kiyosaki says, "Good debt makes you rich and bad debt makes you poor." The ABCs of Getting Out of Debt provides the necessary knowledge to navigate through a very challenging credit environment. A Rich Dad Advisor and best selling author of numerous business books, Garrett Sutton, Esq. and contributor Gerri Detweiler, clearly speak on the key strategies listeners must follow to get out of debt. From there, the listener learns how to beat the lenders at their own game, and how to understand and repair your own credits. Using real life illustrative stories, Sutton shares how to deal with debt collectors, avoid credit scams, and win with good credit. The times call for a book that offers hope and education on mastering credit and getting out of debt.

## Customer Reviews

Kirkus Reviews, December 2012: In this guide, Sutton (Run Your Own Corporation, 2012, etc.) offers recommendations for avoiding and solving debt problems. The author begins by asserting that the credit industry actively entices all comers, especially the young and inexperienced. In the first part of this book, he goes on to offer some overall guidelines for dealing with consumer debt. In Chapter Four, he explains a 10-step strategy, along with sample worksheets, used by one couple who never seemed to make a dent in the amount

they owed. The author makes recommendations about debt consolidation and includes a lengthy chapter, 'Getting Help,' that thoroughly explains the different kinds of bankruptcy and the process of borrowing against a 401(k). The second part of the book looks at specific kinds of debt, ranging from the timely mortgage troubles to tax debt. A section on student loans, for example, includes eight remedies for dealing with overwhelming loan payments. Sutton's chapter on debt collectors asserts that negotiating with collection agencies is 'one of the most important skills you can learn and hone.' The handbook's third part deals primarily with credit reporting agencies, credit reports and how they're compiled, and credit repair. Throughout, the author presents stories of real-life predicaments that enliven what might have otherwise been bone-dry material. For example, 'Credit Reports' describes the years-long misery of a failed entrepreneur: 'Roberto...had taken some risks on a restaurant that didn't work out.' Finally, a chapter on credit scams and good uses of credit is followed by three appendices, including a list of other helpful books and websites. A fact-packed, easy-to-navigate resource for consumers concerned about debt. From AudioFile April, 2013

The Rich Dad brand of financial self-help books is known for being accessible to the average listener. Their personal relatability comes across in the narration of this volume. There are some surprise moments, such as when the listener hears Kim Kiyosaki explain in her own voice an aggressive debt repayment strategy. Sutton and Stratton deliver the content as though they were friends explaining these concepts to the listener in his or her own living room. The variation in tone, pitch, and emphasis keeps the listener engaged even during the myriad technical details on finances. There are also interview segments, taken from sessions with financial experts. M.R. © AudioFile 2013, Portland, Maine

Garrett Sutton is an attorney, best selling author and on of Robert Kiyosaki's Rich Dad Advisors. A clear and engaging writer, Garrett demystifies legal topics and presents them in a very understandable and accessible manner. He has over thirty years experience in assisting individuals and businesses to limit their liability, protect their assets, implement advantageous corporate structures and advance their financial goals. Garrett is the author of Start Your Own Corporation, Writing Winning Business Plans, Buying and Selling a Business and The ABCs of Getting Out of Debt among other titles.

ABOUT RICH DAD ADVISORSThe Rich Dad Advisor series is the comprehensive, 'how-to' companion series to Robert Kiyosaki's international blockbuster Rich Dad Poor Dad which is recognized as the #1 Personal Finance book of all time. The Rich Dad Advisor series, which has sold over 2 million copies globally, are timely and accessible books written by

legal, tax and business experts selected by Kiyosaki as his Advisors.

Yes I recommend this book! Well written with good advice. Easy to understand and do.

I am currently reading this book and so far I can tell you that I am very please with all the information it offers.

Very detail for helping with getting out of debt. Didn't mean to buy it but still was a good read.

Good book, very helpful....could have used it years ago...

Garrett Sutton's "ABC's of Getting Out of Debt" is unique among debt books. It doesn't talk down to the reader. It talks about the health and psychological challenges of debt. And it provides concrete advice for how to deal with your challenges. While many other books offer form letters to write and platitudes about debt this book gets into the meat of the topic. And it helpfully talks about once you've solved your problems how to then use debt to your advantage. This is really an outstanding book!!

This is definitely one of my favorite how-to business books. It helps to know what to do to improve your credit score - especially after a hardship - which I personally experienced with a job loss and medical bills a few years ago. I wish I had read this book back in my college years. It would have saved me many sleepless nights! I think every young adult should read this one.

Everything I needed to know about getting out of debt was in this book. From debt consolidation, credit repair and debt management to credit scores and the credit bureaus, it was all clearly explained.

Sutton does an excellent job of explaining the credit system, how different debt affects it, how to get out of debt most quickly, and why being free of bad debt allows you to use good debt to your advantage.
