# Prego! An Invitation To Italian (Student Edition + Listening Comprehension Audio CD)

## Synopsis

This best-selling beginning Italian text offers a four-skills and communicative introduction to Italian language and culture. Three new co-authors join the most exciting and significant revision since the book's inception in 1980. The text provides communicative activities and a streamlined vocabulary and grammar presentation. The fifth edition captures contemporary Italian culture within a beautiful new design. The package for Prego! is now state of the art.

## Customer Reviews

Text: English, Italian --This text refers to an out of print or unavailable edition of this title.

The book came without online access, and is not nearly as good as other more comprehensive programs. The partner McGraw Hill chose to create online content has a site that is not user friendly. There is no easy means to figure out how to buy the correct key code to get online access with your book. I don't mind paying for a program that works, ie one that makes it easy for self study, but I do mind paying for this product. Like with Cengage products, everything is designed to recruit a teacher to adopt an entire course with the online content. If teacher does not do this, the student can and will often remain confused, as it is difficult and expensive to acquire the a/v program that comes with this book. This is a horrible paradigm. Traditional college language study involves classroom, text and lab. The language lab has evolved to include multimedia instruction, and after this quality material was produced, some publishers found a way to parcel it out to

students in successively more expensive products. Pearson produces texts and makes it easy for students to find the online material. They design their courses to work with both classroom and self-study. The latter is a smarter approach as many of these courses are going online. If you are a working with an individual teacher or teaching yourself, I would avoid this text.

sells the book without the book key which gives access to online content (video, conversation exercises, etc). Books sold at campus bookstores are sold with a book key. Without the book key you have to pay \$52 more to get online access.

The item was in great condition, arrived quickly, and was cheaper than buying the bundled version of the textbook, lab manual, and workbook that sells  $\hat{A}$  Prego Book+WB/LM. The only problem is that bought separately, none of these come with the online QUIA access code, which is the only reason I spent a ridiculous amount of money on new copies of the books. sells the access code for \$80  $\hat{A}$  Quia Laboratory Manual Access Card for Prego! [Access card only], but should really put that its not included in the product description page.

Love the rental program through . Ordered my book on Monday and it arrived on Wednesday just in time for my 2nd class. Haven't read through the entire book but I will review again after at the end of the term. Right now, my class is on the second chapter and it seems to be a pretty good book for beginners. Although, I previously learned Spanish and am fluent, so my learning experience has been more independent. I like the examples that are used and the workbook to accompany is laid out very nicely. I bought the workbook and the lab manual along with the textbook. My reviews among the three are consistent. I have no complaints so far. The only thing it lacks is history and geography. I always value having those in language books as it puts why you are learning the language into a bigger context.

The item was in great condition, arrived quickly, and was cheaper than buying the bundled version of the textbook, lab manual, and workbook that sells  $\hat{A}$  Prego Book+WB/LM. The only problem is that bought separately, none of these come with the online QUIA access code, which is the only reason I spent a ridiculous amount of money on new copies of the books. sells the access code for \$80  $\hat{A}$  Quia Laboratory Manual Access Card for Prego! [Access card only], but should really put that its not included in the product description page.

Bought for class because that's what I needed.

I love the book as it's very user friendly. It includes grammar, cultural information about different parts of Italy and its people, and utilizes just enough English to make it understandable.

This book leaves a lot to be desired. The set up of the book is something that could be improved and certain concepts could definitely be expanded and explained better. My teacher definitely had to fill in MANY gaps that this book left and had to expand on concepts that were not fully developed. It wasn't terrible, but could be way better.
