## Customer Reviews

Founded in 1947, Hal Leonard Corporation has become the worlds largest print music publisher, representing some of the greatest songwriters and artists of all time. We are proud to publish titles of interest to all musicians as well as music lovers, from songbooks and instructional titles to artist biographies and instrument price guides to books about the music industry and all the performing arts.

I like the book very much. It collects the most popular baby and children songs music sheets in easy arrangements with lyrics printed on a very good paper. Good printing quality and a very comfortable scale of printing for children and early beginners. It's just a pleasure to hold the book in hands and to play and sing the songs together with the child. And I ordered it twice one for myself and one as a

present for a teacher and she was very happy.

Since I'm a beginner guitar player, I would have been happier with the book if the chords (finger positions) were included.

Singing the classics with my granddaughter, .. priceless.

A huge collection of children songs.... for the musically inclined, the chord arrangements are not the best but the book definitely serves its purpose.

This is a terrific book with all the classic nursery rhymes and songs, with very simple music to follow along on the piano or just to sing. Most other books I've seen have a much smaller selection of tunes and the music is more complicated. It makes a great gift as well - I found that a lot of new parents are looking for something other than 'Twinkle Twinkle' and 'The Wheels on the Bus...' to sing to and with their children :-)

Only a couple of songs that should've had additional verses: "Hush Little Baby" has a lot of verses and there was only 1. Otherwise this was exactly what I was looking for since I play the piano and sing.

Just what I wanted ---

Has all the great standard children's songs and then some more!
