Customer Reviews

In my haste I failed to notice the old copyright date - 2000 - my fault. However, I had hoped there would be some suggestions of places to market the magazines and I didn't find that included so it was of very little use to me.

As described with all the minutia anyone could ask for. A truly a handy reference guide for those who need to see it laid out in front of them in black and white type. Incredibly out of date but excellant starting point then verify and compare on the internet

Great

Great help to understand the values of old publications

This book is full of price list and guide lines for collectible magazines. Informative with several pictures to verify by.

Just what I was looking for!

Of course not all magazines are here but so many are that you can still get a feel for what certain magazines cost. Some of these listings contain who/whats of each issue, there is a section on monster and adult mags too.

wasted money on this book.i thought you had an updated version.i was wrong, will do my homework better next time.
